

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

The Commission notes that ETF trades constituted a substantial majority of the trades that were cancelled on May 6, and the proposed amendments would bring certain ETFs within the scope of the trading pause pilot for the first time. The Commission solicits comment regarding the inclusion of ETFs within the trading pause pilot. The Commission requests comment in particular on the implications of including in the trading pause pilot ETFs on broad-based indices that also underlie options and futures products. What are the potential benefits and risks of including those ETFs in the pilot under circumstances where other products based on the same index may not be subject to any trading pause, or may be subject to a different type of trading pause? Are existing mechanisms available in the markets for those other products sufficient to address any cross-market linkage concerns? What are the potential effects on price discovery and trading behavior in the different markets?

Similarly, the Commission solicits comments on the potential benefits and risks of excluding such ETFs from the pilot, particularly under circumstances where the securities underlying the ETF are included in the pilot. If there are trading pauses for the component securities of an index but not for an ETF based on that index, what consequences might that have for the ETF or for other products based on that index? If there are trading pauses in an ETF but not in the stocks that underlie that ETF, what consequences might that have for the underlying stocks or other products? What are the potential effects on price discovery for the ETF, the underlying stocks and other products?

Are there other market-based characteristics or metrics that should be considered for purposes of determining which ETFs should be included in the trading pause pilot, or for re-calibrating particular features of the trading pause?

In addition, the Commission solicits comments regarding the operation of the trading pause pilot to date with respect to stocks in the S&P 500.
