Tennessee Pipeline Company; Notice of Request Under Blanket Authorization

July 1, 2010.

Take notice that on June 18, 2010, Tennessee Pipeline Company (Tennessee), 1001 Louisiana Street, Houston, Texas 77002, filed in Docket

No. CP10-463-000, a prior notice request pursuant to sections 157.205 and 157.216 of the Federal Energy Regulatory Commission's regulations under the Natural Gas Act for authorization to abandon an inactive supply lateral designated as Line No. 523A-100, located in Lafourche Parish, Louisiana extending into state waters offshore Louisiana in the Bay Marchand Area, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Specifically, Tennessee proposes to abandon an inactive offshore supply lateral consisting of approximately 11.4 miles of six-inch diameter and associated meters and appurtenances. Tennessee states that a segment of the supply lateral was damaged by Hurricane Ike in September 2008 and the supply lateral has been out of service since this time. Tennessee avers that the proposed abandonment will not result in the termination of any services to Tennessee customers and the receipt point and delivery point proposed for abandonment are not tied to any firm transportation agreement. Tennessee declares that no interruptible services have been provided through the supply lateral in more than twelve months.

Any questions regarding the application should be directed to Susan T. Halbach, Senior Counsel, Tennessee Pipeline Company, 1001 Louisiana Street, Houston, Texas 77002 at (713) 420-5751 or (713) 420-1601 (facsimile)
