

Need and Use of the Information: Applicants generally are seed firms who use the seed analysis certificates to represent the quality of seed lots to foreign customers according to the terms specified in contracts of trade. The only information collected is information needed to provide the service requested by the applicant. Applicants must provide information such as the kind and quantity of seed, tests to be performed, and seed treatment, if present, along with a sample of seed in order for AMS to provide the service. Only authorized AMS employees use the information collected to track, test, and report test results to the applicant. If the information were not collected, AMS would not know which test to conduct or would not be able to relate the test results with a specific lot of seed.

Animal and Plant Health Inspection Service

Title: Importation of Nursery Stock.

OMB Control Number: 0579-0279.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of plant pests and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS) regulations contained in "Subpart-Nursery Stock Plants, Roots, Bulbs, Seeds, and Other Plant products (§§ 319.37 through 319.37-14) restricts among other things, the importation of living plants, plant parts, seeds, and plant cuttings for planting or propagation.

Need and Use of the Information: APHIS requires that some plants or plant products be accompanied by either a phytosanitary inspection certificate with a declaration, export certificate, or a special certificate that is completed by plant health officials in the originating or transiting country. APHIS uses the information on these certificates to determine the pest condition of the shipment at the time of inspection in the foreign country. This information is used as a guide to the intensity of the inspection that APHIS must conduct when the shipment arrives. Without this information, all shipments would need to be inspected more thoroughly, thereby requiring considerably more time.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 52.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 451.
