

**SUPPLEMENTARY INFORMATION:**

OMB Control Number: 3060-0975.

Title: Sections 68.3 and 1.4000, Promotion of Competitive Networks in Local Telecommunications Markets Multiple Tenant Environments (MTEs).  
Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, federal government, state, local or tribal government.

Number of Respondents and Responses: 5,874 respondents, 5,874 responses.

Estimated Time Per Response: .5 – 10 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. section 151.

Total Annual Burden: 194,284 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this comment period to obtain the full three year clearance from them. There is no change to the reporting and/or third party disclosure requirements. There is a 21,598 hour reduction. The Commission anticipated that this burden would decrease over time because the request for location information would have already been made at most buildings. Therefore, the number of respondents is decreasing as well as the total annual burden hours.

In a October 2001 Order, FCC 00-366, the Commission did the following: 1) prohibited carriers from entering into contracts that restrict or effectively restrict a property owner's ability to permit entry by competing carriers; 3) established procedures to facilitate moving the demarcation point to the minimum point of entry ("MPOE") at the building owner's request, and requires incumbent local exchange carriers (LECs) to timely disclose the location of existing demarcation points where they are not located at the MPOE; 3) determined that, under Section 224 of the Communications Act of 1934, as amended, utilities, including LECs, must afford telecommunications carriers and cable service providers reasonable and non-discriminatory access to conduits and rights-of-way located in customer buildings and campuses, to the extent such conduits and rights-of-

way are owned or controlled by the utility; and 4) extended to antennas that receive and transmit

telecommunications and other fixed wireless signals the existing prohibition of restrictions that impair the installation, maintenance or use of certain video antennas on property within the exclusive use or control of the antenna user, where the user has a direct or indirect ownership or leasehold interest in the property.

a. The demarcation point burden consists of two components: 1) the LEC shall make available information on the location of the demarcation point within ten business days of a request from the premises owner (location information); and 2) at the time of installation, the LEC shall fully inform the premises owner of its options and rights regarding the placement of the demarcation point or points (options information).

b. The Over-the-Air Reception Devices (OTARD) portion of this information collection relates to the revision of the Commission's rules under 1.4000. Under those revisions, as a condition of invoking protection under 47 CFR 1.400 from government, landlord, and association restrictions, a licensee must ensure that subscriber antennas are labeled to give notice of potential radio frequency safety hazards of these antennas. Labeling information (third party disclosure requirement) should include minimum separation distances required between users and radiating antennas to meet the Commission's radio frequency exposure guidelines. Labels should also include reference to the Commission's applicable radio frequency exposure guidelines and should use the ANSI-specified warning symbol for radio frequency exposure. In addition, the instruction manuals and other information accompanying subscriber transceivers should include a full explanation of the labels, as well as a reference to the applicable Commission radio frequency exposure guidelines.

**FEDERAL COMMUNICATIONS COMMISSION****Notice of Public Information Collection(s) Being Submitted for Review and Approval to the Office of Management and Budget (OMB), Comments Requested**

July 8, 2010.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501 – 3520. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

**DATES:** Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 12, 2010. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via the Internet at Nicholas.A.Fraser@omb.eop.gov and to the Federal Communications Commission via email to PRA@fcc.gov. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the web page <http://reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called "Currently Under Review", (3)

click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, and (6) when the list of FCC ICRs currently under review appears, look for the title of this ICR (or its OMB Control Number, if there is one) and then click on the ICR Reference Number to view detailed information about this ICR.

**SUPPLEMENTARY INFORMATION:**

OMB Control Number: 3060-1135.  
Title: Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations (Including Wireless Microphones).

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions and state, local or tribal government.

Number of Respondents and Responses: 5,100 responses; 127,500 responses.

Estimated Time per Response: .25 hours (15 minutes).

Frequency of Response: Third party disclosure requirements (disclosure and labeling requirements).

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. sections 151, 152, 154(i), 154(j), 301, 302(a), 303, 304, 307, 308, 309, 316, 332, 336 and 337.

Total Annual Burden: 31,875 hours.

Total Annual Cost: \$1,625,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

There is no need for confidentiality since these are third party disclosure and labeling requirements.

Needs and Uses: The Commission will submit this expiring information collection during this comment period to obtain the full three year clearance from the Office of Management and Budget (OMB). The Commission is reporting a revision which is due to elimination of the early clearing requirement burden as it will be unnecessary after June 12, 2010 while keeping the disclosure and labeling requirements that would allow the Commission to clear the 700 MHz band of wireless microphones and provide

them a home in the core TV spectrum, where many wireless microphones are already operating. Therefore, the Commission is reporting a 1,049 hour program change reduction in burden.

The point-of-sale disclosure requirement is necessary for a successful transition of wireless microphones out of the 700 MHz band. The Commission anticipates that many wireless microphone users currently operating in the 700 MHz band will have to purchase or lease new equipment capable of operating in the core TV spectrum. The point-of-sale disclosure requirement will help these consumers make an educated decision as they obtain new microphones, and it will help them operate in the core TV spectrum without causing harmful interference to other services in the spectrum. Further, a label on 700 MHz band wireless microphones bound for export will help to ensure that these wireless microphones do not continue to be made available for use in the United States, in contravention of our efforts to remove them from the 700 MHz band.
