Fisheries of the Exclusive Economic Zone Off Alaska; Community Development Quota Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes to amend regulations that govern fisheries managed under the Western Alaska Community Development Quota (CDQ) Program. These revisions are needed to comply with certain changes made to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) in 2006. Proposed changes include revising regulations associated with recordkeeping, vessel licensing, catch retention requirements, and fisheries observer requirements to ensure that they are no more restrictive than the regulations in effect for comparable non-CDQ fisheries managed under individual fishing quotas or cooperative allocations. In addition, NMFS proposes to remove CDQ Program regulations that now are inconsistent with the Magnuson-Stevens Act, including regulations associated with the CDQ allocation process, transfer of groundfish CDQ and halibut prohibited species quota, and the oversight of CDQ groups' expenditures.

DATES: Comments must be received no later than August 12, 2010.
