

or waters owned by others without the owners' express permission.

The proposed Sardis Lake Hydroelectric Project consists of: (1) An existing 15,300-foot-long dam and dike; (2) a control tower containing four vertical gates connected to a 550-foot-long outlet tunnel; (3) a proposed 75-foot-wide intake structure; (4) a proposed 800-foot-long, 16-foot diameter steel penstock; (5) a proposed reinforced concrete powerhouse containing a 8.0-megawatt turbine/generator; (6) a proposed 1 and 0.25-mile-long 138-kilovolt three-phase overhead transmission line; and (7) appurtenant facilities. The FFP Missouri 2, LLC, project would have an average annual generation of 40-gigawatt-hours.

*Applicant Contact:* Ms. Ramya Swaminathan, FFP Missouri 2, LLC, 33 Commercial Street, Gloucester, MA 01930, phone (978) 283-2822.

#### FFP Missouri 2, LLC; Notice of Preliminary Permit Applications Accepted for Filing and Soliciting Comment, Motions To Intervene, and Competing Applications

July 7, 2010.

On April 5, 2010, FFP Missouri 2, LLC filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Arkabutla Lake Hydroelectric Project, to be located on the Coldwater River, Tate and DeSoto Counties, Mississippi. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Arkabutla Lake Hydroelectric Project consists of: (1) An existing 11,500-foot-long dam and dike; (2) a control tower containing four vertical gates connected to a 400-foot-long outlet tunnel; (3) a proposed 50-foot-wide intake structure; (4) a proposed 900-foot-long, 12-foot diameter steel penstock; (5) a proposed reinforced concrete powerhouse containing a 3.5-megawatt turbine/generator; (6) a proposed 0.5-mile-long, 12.5-kilovolt three-phase overhead transmission line; and (7) appurtenant facilities. The FFP Missouri 2, LLC, project would have an average annual generation of 17.5 gigawatt-hours.

*Applicant Contact:* Ms. Ramya Swaminathan, FFP Missouri 2, LLC, 33 Commercial Street, Gloucester, MA 01930, phone (978) 283-2822.

[Project No. 13591-000]

#### McGinnis, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

July 6, 2010.

On September 29, 2009, McGinnis, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Kentucky Hydrokinetic Project, to be located on the Tennessee River downstream of the Tennessee Valley Authority (TVA) and the Corps of Engineers' (COE) existing Kentucky Lock & Dam in Marshall and Livingston County, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Kentucky Hydrokinetic Project consists of: (1) 10 proposed 35 kilowatt axial flow turbine generating units having a total installed capacity of 350 kilowatts; (2) a 700-foot-long, 13.2 kilovolt transmission line; and (3) appurtenant facilities. The proposed Kentucky Hydrokinetic Project would have an average annual generation of 1.533 gigawatt-hours.

*Applicant Contact:* Bruce McGinnis, Sr., CEO, McGinnis, Inc., 502 Second Street Ext., South Point, OH 45680; phone: (740) 377-4391.
