**SUPPLEMENTARY INFORMATION:**

**A. Need For and Use of the Information Collection**

Section 6 of the Federal Home Loan Bank Act (Bank Act) establishes the capital structure for the Federal Home Loan Banks (Banks) and requires FHFA to issue regulations prescribing uniform capital standards applicable to each Bank.<sup>1</sup> Parts 930, 931, 932, and 933 of title 12, Code of Federal Regulations implement the statutory capital structure for the Banks. Part 930 establishes definitions applicable to risk management and the capital regulations; part 931 concerns Bank capital stock; part 932 establishes Bank capital requirements; and part 933 sets forth the requirements for Bank capital structure plans. The provisions of part 931 provide that a Bank must require its members to maintain a minimum investment in the capital stock of the Bank as a condition to becoming and remaining a member of the Bank and as a condition to transacting business with the Bank or obtaining advances from the Bank. The amount of the required minimum investment is determined in

accordance with the Bank's capital plan under part 933.

The Banks use the information collection to determine the amount of capital stock a member must purchase to maintain membership in and to obtain services from a Bank. More specifically, the provisions of §§ 931.3 and 933.2(a) authorize a Bank to offer its members several options to satisfy a membership investment in capital stock and an activity-based stock purchase requirement. The information collection is necessary to provide the Banks with the flexibility to meet the statutory and regulatory capital structure requirements while allowing Bank members to choose the option best suited to their business requirements.

The OMB control number for the information collection is 2590-0002. The OMB clearance for the information collection expires on July 31, 2010. The likely respondents include Banks and Bank members.

**B. Burden Estimate**

While the number of member respondents has remained essentially the same, the overall burden on members of the Banks has decreased because of more accurate calculations. The estimate for the total annual hour burden for all member respondents is 3,023 hours. The estimate for the total annual cost burden for member respondents is \$123,943. These estimates are based on the following calculations:

FHFA estimates the total annual average number of activity-based stock purchase requirement for member respondents at 28,080 (108 daily borrowers x 260 working days, x 1 response per respondent). The estimate for the average hours per response is 0.05 hours. The estimate for the annual hour burden for activity-based stock purchase requirement member respondents is 1,404 hours (108 daily borrowers x 260 working days, x 1 response x 0.05 hours). The estimate for the annual cost burden for member respondents is \$57,564 (1,404 hours x \$41 hourly rate).

FHFA estimates the total annual average number of investment in capital stock membership maintenance respondents at 32,372 (8,093 with 4 responses per respondent). The estimate for the average hours per response is 0.05 hours. The estimate for the annual hour burden for membership maintenance investment in capital stock respondents is 1,619 hours (8,093 membership respondents x 4 responses per year x 0.05 hours per response). The estimate for the annual cost burden \$66,379 (1,619 hours x \$41 hourly rate).

**C. Comment Request**

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published a request for public comments regarding this information collection in the **Federal Register** on March 29, 2010. See 75 FR 15431 (Mar. 29, 2010). The 60-day comment period closed on May 28, 2010. No public comments were received.

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Dated: July 6, 2010.
