

England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION: The Committee will discuss several outstanding issues related to Amendment 15. For example, a possible restriction for permits that de-stack, a measure to address possible overages of yellowtail flounder catch in 2010 in the scallop fishery, and further clarifications about new monitoring requirements for annual catch limits in the scallop fishery. The Committee will review preliminary input from six Amendment 15 public hearings that were held in mid-July. There will also be a presentation on the results from the recent scallop assessment (SAW 50). The Committee will review input from the Scallop Advisory Panel related to the development of Framework 22 measures and other issues.

Lastly, the Committee will discuss whether the Council should consider modifying the existing Scallop Advisory Panel and separate it into two panels - one primarily focused on issues relevant to the limited access scallop fishery, and a second panel primarily focused on limited access general category issues. If time permits the Committee may discuss other issues.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
