BILLING CODE 7050-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2010-0118]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to the Office of Management and Budget (OMB) for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on March 24, 2010.

1. *Type of submission, new, revision, or extension:* Revision.
2. *The title of the information collection:* 10 CFR Part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants."
3. *Current OMB approval number:* 3150-0151.
4. *The form number if applicable:* Not applicable.
5. *How often the collection is required:* Whenever applications are made for Early Site Permits (ESPs), Standard Design Certifications (SDCs), Combined Licenses (COLs), Standard Design Approvals (SDAs), or Manufacturing Licenses (MLs); and every 10 to 20 years for applications for renewal.
6. *Who will be required or asked to report:* Designers of commercial nuclear power plants (NPPs), electric power companies, and any person eligible under the Atomic Energy Act to apply for ESPs, SDCs, COLs, or MLs.
7. *An estimate of the number of annual responses:* 11,332.

8. *The estimated number of annual respondents:* 4,666.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 204,075 (191,774 reporting, 12,301 recordkeeping).

10. *Abstract:* 10 CFR Part 52 establishes requirements for the granting of ESPs, certifications of standard NPP designs, and licenses which combine in a single license a construction permit, and an operating license with conditions, OLs, MLs, SDAs, and pre-application reviews of site suitability issues. Part 52 also establishes requirements for renewal of those approvals, permits, certifications, and licenses; amendments to them; exemptions from certifications; and variances from ESPs.

NRC uses the information collected to assess the adequacy and suitability of an applicant's site, plant design, construction, training and experience, plans and procedures for the protection of public health and safety. The NRC review of such information and the findings derived from that information form the basis of NRC decisions and actions concerning the issuance, modification or revocation of site permits, DCs, COLs, and MLs for NPPs.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by August 19, 2010. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Christine J. Kymn, Desk Officer, Office of Information and Regulatory Affairs (3150-0151), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to Christine.J.Kymn@omb.eop.gov or submitted by telephone at (202) 395-4638.

The NRC Clearance Officer is Tremaine Donnell, (301) 415-6258.

Dated at Rockville, Maryland, this 13th day of July 2010.

For the Nuclear Regulatory Commission.

Tremaine Donnell,
NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-443; NRC-2010-0206]

NextEra Energy Seabrook; Notice of Intent To Prepare an Environmental Impact Statement and Conduct the Scoping Process for Seabrook Station, Unit 1

NextEra Energy Seabrook, LLC has submitted an application for renewal of Facility Operating License No. NPF-86 for an additional 20 years of operation at Seabrook Station, Unit 1 (Seabrook Station). Seabrook Station is located 13 miles south of Portsmouth, NH.

The current operating license for Seabrook Station expires on March 15, 2030. The application for renewal, dated May 25, 2010, was submitted pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 54, which included an environmental report (ER). A separate notice of receipt and availability of the application was published in the **Federal Register** on June 16, 2010 (75 FR 34180). A notice of acceptance for docketing of the application and opportunity for hearing regarding renewal of the facility operating license is also being published in the **Federal Register**. The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) related to the review of the license renewal application and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29.

As outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act," the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act (NHPA) in meeting the requirements of the National Environmental Policy Act of 1969 (NEPA). Pursuant to 36 CFR 800.8(c), the NRC intends to use the NEPA process and documentation for the preparation of the EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth at 36 CFR 800.3 through 800.6.

In accordance with 10 CFR 51.53(c) and 10 CFR 54.23, NextEra Energy Seabrook submitted the ER as part of the application. The ER was prepared

pursuant to 10 CFR Part 51 and is publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. From this page, the public can gain entry into ADAMS, which provides text and image files of NRC's public documents. The ADAMS Accession Number for the Seabrook Station ER is ML101590094. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR reference staff by telephone at 800-397-4209 (or 301-415-4737) or by e-mail at pdr.resource@nrc.gov. The ER may also be viewed on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/seabrook.html>. In addition, paper copies of the ER are available to the public near the site at the Seabrook Library, 25 Liberty Street, Seabrook, NH 03874 and at the Amesbury Public Library, 149 Main Street, Amesbury, MA 01913. Public comments and supporting materials related to this notice can be found at the Federal rulemaking Web site, <http://www.regulations.gov>, by searching on Docket ID NRC-2010-0206.

This notice advises the public that the NRC intends to gather the information necessary to prepare a plant-specific supplement to the NRC's "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants," (NUREG-1437) related to the review of the application for renewal of the Seabrook Station operating license for an additional 20 years. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources. The NRC is required by 10 CFR 51.95 to prepare a supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with NEPA and the NRC's regulations found at 10 CFR Part 51.

The NRC will first conduct a scoping process for the supplement to the GEIS and, as soon as practicable thereafter, will prepare a draft supplement to the GEIS for public comment. Participation in the scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the supplement to the GEIS will be used to accomplish the following:

a. Define the proposed action, which is to be the subject of the supplement to the GEIS;

b. Determine the scope of the supplement to the GEIS and identify the significant issues to be analyzed in depth;

c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;

d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of, the scope of the supplement to the GEIS being considered;

e. Identify other environmental review and consultation requirements related to the proposed action;

f. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule;

g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the supplement to the GEIS to the NRC and any cooperating agencies; and

h. Describe how the supplement to the GEIS will be prepared and include any contractor assistance to be used. The NRC invites the following entities to participate in scoping:

a. The applicant, NextEra Energy Seabrook;

b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;

c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;

d. Any affected Indian tribe;

e. Any person who requests or has requested an opportunity to participate in the scoping process; and

f. Any person who has petitioned or intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has decided to hold public meetings for the Seabrook Station license renewal supplement to the GEIS. The scoping meetings will be held on August 19, 2010, and there will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 3:30

p.m., as necessary. The second session will convene at 7 p.m., with a repeat of the overview portions of the first meeting, and will continue until 9 p.m., as necessary. Both sessions will be held at the Galley Hatch Conference Center, 815 Lafayette Road, Hampton, NH 03842. Both meetings will be transcribed and will include: (1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the supplement to the GEIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the supplement to the GEIS. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No formal comments on the proposed scope of the supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meetings or in writing, as discussed below.

Persons may register to attend or present oral comments at the meetings on the scope of the NEPA review by contacting the NRC Project Manager, Mr. Jeremy Susco, by telephone at 800-368-5642, extension 2927, or by e-mail at Jeremy.Susco@nrc.gov no later than August 12, 2010. Members of the public may also register to speak at the meeting within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak if time permits. Public comments will be considered in the scoping process for the supplement to the GEIS. Mr. Susco will need to be contacted no later than August 5, 2010, if special equipment or accommodations are needed to attend or present information at the public meeting so that the NRC staff can determine whether the request can be accommodated.

Members of the public may submit comments by any one of the following methods. Please include Docket ID NRC-2010-0206 in the subject line of the comments. Comments submitted in writing or in electronic form will be posted on the NRC website and on the Federal rulemaking website, <http://www.regulations.gov>. Because comments will not be edited to remove any identifying or contact information, the NRC cautions against including any information that the submitter does not want to be publicly disclosed. The NRC

requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information and, therefore, they should not include any information in their comments that they do not want publicly disclosed.

Submit comments electronically via the Federal rulemaking website: Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2010-0206. Address questions about NRC dockets to Carol Gallagher at 301-492-3668 or via e-mail at Carol.Gallagher@nrc.gov.

Mail comments to: Chief, Rulemaking and Directives Branch (RADB), Division of Administrative Services, Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Fax comments to RADB at 301-492-3446. Comments will be available electronically and accessible at <http://www.regulations.gov> and through ADAMS at <http://www.nrc.gov/reading-rm/adams.html>. All comments must be received by September 21, 2010.

Participation in the scoping process for the supplement to the GEIS does not entitle participants to become parties to the proceeding to which the supplement to the GEIS relates. Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

Dated at Rockville, Maryland, this 13th day of July, 2010.

For the Nuclear Regulatory Commission.

Bo M. Pham,

Chief, Projects Branch 1, Division of License Renewal, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0425]

Final Regulatory Guide: Issuance, Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Issuance and Availability of Regulatory Guide, RG 8.40, "Methods for Measuring Effective Dose Equivalent From External Exposure."

FOR FURTHER INFORMATION CONTACT:

Roger Pedersen, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 415-3162 or e-mail Roger.Pedersen@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing a new guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

Regulatory Guide 8.40 was issued with a temporary identification as Draft Regulatory Guide, DG-8039. This guide describes dosimetry methods that the NRC considers acceptable for determining the effective dose equivalent (EDE) for external (EDEX) radiation exposures. These methods provide a conservative estimate of the EDEX and may be used to calculate the total effective dose equivalent (TEDE) in demonstrating compliance with TEDE-based NRC regulatory requirements.

II. Further Information

In September 2009, DG-8039 was published with a public comment period of 60 days from the issuance of the guide. The public comment period closed on November 26, 2009. The staff's responses to the public comments received are located in the NRC's Agencywide Documents Access and Management System under Accession Number ML100620118. The regulatory analysis may be found in ADAMS under Accession No. ML101940038. Electronic copies of RG 8.40 are available through the NRC's public Web site under "Regulatory Guides" at <http://www.nrc.gov/reading-rm/doc-collections/>.

In addition, regulatory guides are available for inspection at the NRC's Public Document Room (PDR) located at 11555 Rockville Pike, Rockville, Maryland. The PDR's mailing address is USNRC PDR, Washington, DC 20555-0001. The PDR can also be reached by telephone at (301) 415-4737 or (800) 397-4205, by fax at (301) 415-3548, and by e-mail to pdr.resource@nrc.gov.

Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

Dated at Rockville, Maryland, this 13th day of July 2010.

For the Nuclear Regulatory Commission.

Andrea D. Valentin,

Chief, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research.

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0002]

Sunshine Act Notice

DATES: Weeks of July 19, 26, August 2, 9, 16, 23, 2010.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

Week of July 19, 2010

There are no meetings scheduled for the week of July 19, 2010.

Week of July 26, 2010—Tentative

There are no meetings scheduled for the week of July 26, 2010.

Week of August 2, 2010—Tentative

There are no meetings scheduled for the week of August 2, 2010.

Week of August 9, 2010—Tentative

Thursday, August 12, 2010

9:30 a.m. Meeting with Organization of Agreement States (OAS) and Conference of Radiation Control Program Directors (CRCPD) (Public Meeting) (Contact: Cindy Flannery, 301 415-0223).

This meeting will be webcast live at the Web address—<http://www.nrc.gov>.

Week of August 16, 2010—Tentative

There are no meetings scheduled for the week of August 16, 2010.

Week of August 23, 2010—Tentative

There are no meetings scheduled for the week of August 23, 2010.
