Alcoa Inc., et al*, Civil No. 2:10-cv-05051-GW (PLAx) (C.D. Cal.), with respect to the Omega Chemical Superfund Site, located in Whittier, Los Angeles County, California (the “Site”).

On July 9, 2010, Plaintiff United States of America (“United States”), on behalf of the United States Environmental Protection Agency (“EPA”) filed a complaint in this matter pursuant to CERCLA Section 107, 42 U.S.C. 9607, seeking recovery of environmental response costs incurred by EPA related to the release or threatened release or disposal of hazardous substances at or from the Site.

Under the proposed Consent Decree, the defendants in the action will implement the Operable Unit One remedy, addressing soil contamination

at the Site, and pay \$1.5 million towards EPA’s unrecovered past response costs. In exchange, the proposed Consent Decree provides a covenant not to sue and contribution protection with respect to the Work, Past Response Costs and Future Response Costs as defined in the proposed Consent Decree.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Acting Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to [pubcomment-ees.enrd@usdoj.gov](mailto:pubcomment-ees.enrd@usdoj.gov) or mailed to P.O. **Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)**

Notice is hereby given that on July 14, 2010, a proposed Consent Decree in the case of *United States v. Blue Tee Corp.*, Civil Action No. 06-05128-DW, with Defendant Blue Tee Corp. was lodged with the United States District Court for the Western District of Missouri.

The United States filed a complaint in December 2006 alleging that Blue Tee Corp. is liable pursuant to Sections 106 and 107 of CERCLA in connection with the Granby Subdistrict of the Newton County Mine Tailings Superfund Site in Missouri. The Court entered a Consent Decree between the United States and Blue Tee Corp. in February 2007 that required Blue Tee Corp. to pay past response costs of \$198,645.11 to EPA and perform a drinking water removal action for the entire Granby Subdistrict. Blue Tee Corp. paid the past costs and has been performing the removal action. This proposed Consent Decree requires Blue Tee Corp. to pay \$600,000 to EPA instead of performing the removal action for the Evergreen Park Subdivision portion of the Granby Subdistrict. Blue Tee Corp. is required to continue the removal action for the rest of the Granby Subdistrict. The 2007 Consent Decree will be terminated upon entry of the proposed Consent Decree.

For thirty (30) days after the date of this publication, the Department of Justice will receive comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to [pubcomment-ees.enrd@usdoj.gov](mailto:pubcomment-ees.enrd@usdoj.gov) or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611. In either case, the comments should refer to *United States v. Blue Tee Corp.*, D.J. Ref. No. 90-11-2-07088/1.

During the comment period, the Consent Decree may be examined on the following Department of Justice Web site: [http://www.usdoj.gov/enrd/Consent\\_Decrees.html](http://www.usdoj.gov/enrd/Consent_Decrees.html). **Activity for Which Permit Is Requested**

Take, Enter Antarctic Specially Protected Areas, and Import into the USA. The applicant plans to continue studies of the behavioral ecology and population biology of the Adelie, Gentoo and chinstrap penguins, and the interactions among these species and their principal avian predators (Skuas, gulls, sheathbills, and giant petrels. Adelie and Gentoo chicks and adults will be banded for demographic studies. Continue studies of penguins' foraging habits, involving the use of radio transmitters, satellite tags and time-depth recorders. Another component of the study is to "stomach pump" up to 40 adults penguins per species, collect blood samples, as well as collect data on egg sizes and adult weights. Penguin uropygial gland oil may be collected for contaminant studies and un-hatched penguin eggs may be collected for lipid studies. Samples will be returned to universities for additional studies.

**NUCLEAR REGULATORY COMMISSION**

[NRC-2010-0206; Docket No. 50-443]

**Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of Facility Operating License No. NPF-86 for an Additional 20-Year Period; Nextera Energy Seabrook, LLC; Seabrook Station, Unit 1**

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering an application for the renewal of operating license NPF-86, which authorizes NextEra Energy Seabrook, LLC (NES) to operate the Seabrook Station, Unit 1 (Seabrook Station) at 3648 megawatts thermal. The renewed license would authorize the applicant to operate Seabrook Station for an additional 20 years beyond the period specified in the current license. Seabrook Station is located 13 miles south of Portsmouth, NH. The current operating license expires on March 15, 2030.

NES submitted the application dated May 25, 2010, pursuant to Title 10 of the *Code of Federal Regulations*, Part 54 (10 CFR Part 54) to renew operating license NPF-86. A notice of receipt and availability of the license renewal application (LRA) was published in the **Federal Register** on June 16, 2010 (75 FR 34180).

The Commission's staff has determined that NES has submitted sufficient information in accordance with 10 CFR Sections 2.101, 51.45, 51.53(c), 54.19, 54.21, 54.22, and 54.23 to enable the staff to undertake a review of the application, and the application is therefore acceptable for docketing. The Commission will retain the current Docket No. 50-443 for operating license No. NPF-86. The determination to accept the LRA for docketing does not constitute a determination that the renewed license should be issued and does not preclude the staff from requesting additional information as the review proceeds.
