

americanus) fishermen who catch and market their lobster in Maine. The Administrator will determine within 40 days whether or not increasing imports of American lobster contributed importantly to a greater than 15-percent decrease in the production value of lobster compared to the average of the three preceding marketing years. If the determination is affirmative, fishermen who land and market American lobster in Maine will be eligible to apply to the Farm Service Agency for free technical assistance and cash benefits.

**ACTION:** Notice.

The Administrator of the Foreign Agricultural Service (FAS) today accepted and began a review of a petition for trade adjustment assistance filed under the FY 2011 Program by 100% Puerto Rico Coffee Export Board, Inc. on behalf of coffee producers in Puerto Rico. The Administrator will determine within 40 days whether increasing imports of coffee contributed importantly to a greater than 15-percent decrease in the average annual price, production quantity, or production value of coffee compared to the average of the 3 preceding marketing years. If the determination is affirmative, producers who produce and market coffee in Puerto Rico will be eligible to apply to the Farm Service Agency for free technical assistance and cash benefits.

**ACTION:** Notice.

The Administrator of the Foreign Agricultural Service (FAS) today accepted and began a review of a petition for trade adjustment assistance filed under the FY 2011 Program by three wool producers on behalf of wool producers in Idaho, Utah, and Wyoming. The Administrator will determine within 40 days whether increasing imports of wool contributed importantly to a greater than 15-percent decrease in the value of production of wool, compared to the average of the 3 preceding marketing years. If the determination is affirmative, producers who produce and market wool in Idaho, Utah, and Wyoming will be eligible to apply to the Farm Service Agency for free technical assistance and cash benefits.

**Proposed Information Collection; Comment Request; NTIA/FCC Web-based Frequency Coordination System**

**AGENCY:** National Telecommunications and Information Administration, Commerce.

**ACTION:** Notice.

**SUMMARY:** The U.S. Department of Commerce (DOC), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on this proposed information, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before September 20, 2010.

**ADDRESSES:** Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, U.S. Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Charles Franz at [cfranz@ntia.doc.gov](mailto:cfranz@ntia.doc.gov), (202) 482-1826.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The National Telecommunications and Information Administration (NTIA) hosts a Web-based system that collects specific identification information (e.g., company name, location and projected range of the operation, etc.) from applicants seeking to operate in existing and planned radio frequency (RF) bands that are shared on a co-primary basis by federal and non-federal users. The Web-based system provides a means for non-federal applicants to rapidly determine the availability of RF spectrum in a specific location, or the need for detailed frequency coordination of a specific newly proposed assignment within the shared portions of the radio spectrum. The Web site allows non-federal applicants proposed radio site information to be analyzed, and a real-time determination made as to whether there is a potential for interference to, or from, existing Federal government radio operations in the vicinity of the proposed site. This Web-based coordination helps expedite the coordination process for non-federal applicants while assuring protection of government data relating to national security. The information provided by non-federal applicants will also assure the protection of the applicant's station from radio frequency interference from future government operations.

**II. Method of Collection**

NTIA collects the data by means of an Internet Web-based system. The applications on the Web site provide
