SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

You may mail or hand-deliver comments to Leah Quesenberry, BLM Royal Gorge Field Office, 3028 East Main Street, Cañon City, Colorado 81212, or e-mail comments to rgfo_comments@blm.gov and include "Proposed Supplementary Rules" in the subject line. Written comments on the proposed supplementary rules should be specific, be confined to issues pertinent to the proposed supplementary rules, and explain the reason for any recommended change. Where possible, comments should reference the specific section or paragraph of the rules that the comment is addressing. The BLM is not obligated to consider or include in the Administrative Record for the supplementary rules comments that the BLM receives after the close of the comment period (*see DATES*), unless they are postmarked or electronically dated before the deadline, or comments delivered to an address other than the address listed above (*see ADDRESSES*).

Comments, including names, street addresses, and other contact information of respondents, will be available for public review at the BLM Royal Gorge Field Office, 3028 East Main Street, Cañon City, Colorado 81212, during regular business hours (7:30 a.m. to 3:45 p.m., Monday through Friday, except Federal holidays). comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. II. Background

A "Notice of Intent to Prepare the Arkansas River TMP and Amend the Royal Gorge Resource Management Plan" was published in the **Federal Register** on June 9, 2003 (68 FR 34417). The completion of the Arkansas River TMP Environmental Assessment (EA) began a 45-day public comment period on June 19, 2007. Following analysis of the public comments, a decision on the Arkansas River TMP was issued on May 21, 2008. These proposed supplementary rules would allow the BLM to increase law enforcement efforts focused on mitigating damage to natural resources and provide for public health and safety.

III. Discussion of Proposed Supplementary Rules

Under the authority of 43 U.S.C. 1733(a) and 43 CFR 8365.1-6, these proposed supplementary rules would implement certain decisions from the Arkansas River TMP that enhance public safety; protect natural and cultural resources; eliminate motorized and non-motorized impacts on sensitive species habitat; and reduce conflicts among public land users.
