

Notices

Federal Register

Vol. 75, No. 141

Friday, July 23, 2010

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Food Safety and Inspection Service

[Docket No. FSIS–2010–0017]

Notice of Request for Revision of a Currently Approved Information Collection (Specified Risk Materials)

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, this notice announces the Food Safety and Inspection Service's (FSIS) intention to request revision of an approved information collection regarding specified risk materials (SRMs) in cattle because the OMB approval will expire on January 31, 2011, and to incorporate another approved information collection, Specified Risk Materials—Transport.

DATES: Comments on this notice must be received on or before September 21, 2010.

ADDRESSES: FSIS invites interested persons to submit comments on this notice. Comments may be submitted by either of the following methods:

- *Federal eRulemaking Portal:* This Web site provides the ability to type short comments directly into the comment field on this Web page or attach a file for lengthier comments. Go to <http://www.regulations.gov>. Follow the on-line instructions at that site for submitting comments.

- *Mail, including floppy disks or CD-ROMs, and hand- or courier-delivered items:* Send to Docket Clerk, U.S. Department of Agriculture, Food Safety and Inspection Service, Room 2–2175, George Washington Carver Center, 5601 Sunnyside Avenue, Beltsville, MD 20705.

Instructions: All items submitted by mail or electronic mail must include the Agency name and docket number FSIS–2010–0017. Comments received in response to this docket will be made available for public inspection and posted without change, including any personal information, to <http://www.regulations.gov>.

Docket: For access to background documents or comments received, go to the FSIS Docket Room at the address listed above between 8:30 a.m. and 4:30 p.m., Monday through Friday.

For Additional Information: Contact John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence Avenue, SW., Room 6065, South Building, Washington, DC 20250, (202) 720–0345.

SUPPLEMENTARY INFORMATION:

Title: Specified Risk Materials.

OMB Number: 0583–0129.

Expiration Date of Approval: 1/31/2011 (SRM—Transport information collection approval expires on 12/31/2010.)

Type of Request: Revision of a currently approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*). This statute provides that FSIS is to protect the public by verifying that meat products are safe, wholesome, not adulterated, and properly labeled and packaged.

FSIS is requesting revision of an approved information collection addressing paperwork requirements regarding the regulations relating to SRMs in cattle because the OMB approval will expire on January 31, 2011, and to combine it with another related approved information collection, Specified Risk Materials—Transport.

FSIS requires that official establishments that slaughter cattle or process carcasses or parts of cattle develop written procedures for the removal, segregation, and disposition of SRMs. The Agency requires that these establishments maintain daily records to document the implementation and monitoring of their procedures for the removal, segregation, and disposition of SRMs and any corrective actions that they take to ensure that the procedures are effective (9 CFR 310.22).

FSIS also requires official slaughter establishments that transport carcasses or parts of cattle that contain vertebral columns from cattle 30 months of age and older to another federally inspected establishment for further processing to maintain records that verify that the official establishment that received the carcasses or parts, removed and properly disposed of the portions of the vertebral column designated as SRMs (9 CFR 310.22(g)).

This monitoring and recordkeeping is necessary for establishments to further ensure—and for FSIS to verify—that meat and meat products distributed in commerce for use as human food do not contain SRMs.

FSIS has made the following estimates for the revised information collection that combines the two approved information collections based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of approximately .12 hours per response.

Respondents: Official establishments that slaughter cattle or process parts of cattle.

Estimated No. of Respondents: 3,512.

Estimated No. of Annual Responses per Respondent: 303.

Estimated Total Annual Burden on Respondents: 123,916 hours.

Copies of this information collection assessment can be obtained from John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence Avenue, SW., Room 6065, South Building, Washington, DC 20250, (202)720–0345.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information

technology. Comments may be sent both to FSIS, at the addresses provided above, and to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public and in particular minorities, women, and persons with disabilities, are aware of this notice, FSIS will announce it on-line through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2010_Notices_Index/index.asp.

FSIS also will make copies of this **Federal Register** publication available through the *FSIS Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Update* is communicated via Listserv, a free e-mail subscription service consisting of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The *Update* also is available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader, more diverse audience.

In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

Done at Washington, DC, on July 16, 2010.

Alfred V. Almanza,
Administrator.

BILLING CODE 3410-DM-P

DEPARTMENT OF AGRICULTURE

Forest Service

Ochoco National Forest, Lookout Mountain Ranger District; Oregon; Howard Elliot Johnson Fuels and Vegetation Management Project EIS

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Ochoco National Forest is preparing an environmental impact statement (EIS) to analyze the effects of managing fuels and vegetation within the 44,858-acre Howard Elliot Johnson project area, which is approximately 23 miles east of Prineville, Oregon. The project area includes National Forest and Bureau of Land Management System lands in the Howard, Elliot, and Johnson subwatersheds. The alternatives that will be analyzed include the proposed action, no action, and additional alternatives that respond to issues generated through the scoping process. The Ochoco National Forest will give notice of the full environmental analysis and decisionmaking process so interested and affected people may participate and contribute to the final decision.

DATES: Comments concerning the scope of the analysis must be received by August 23, 2010. The draft environmental impact statement is expected to be completed and available for public comment in December, 2010. The final environmental impact statement is expected to be completed in May, 2011.

ADDRESSES: Send written comments to Maurice Evans, Acting District Ranger, Lookout Mountain District, Ochoco National Forest, 3160 NE. Third Street, Prineville, Oregon 97754.

Alternately, electronic comments may be sent to comments-pacificnorthwestochoco@fs.fed.us. Electronic comments must be submitted as part of the actual e-mail message, or as an attachment in plain text (.txt), Microsoft Word (.doc), rich text format (.rtf), or portable document format (.pdf).

FOR FURTHER INFORMATION CONTACT:

Kristy Swartz, Project Leader, or Marcy Anderson, Environmental Coordinator, at 3160 NE. Third Street, Prineville, Oregon 97754, or at (541) 416-6500, or by e-mail at Kristy_swartz@blm.gov or marcelleanderson@fs.fed.us.

Responsible Official: The responsible official will be Jeff Walter, Forest Supervisor, Ochoco National Forest, 3160 NE. Third Street, Prineville, Oregon 97754.

SUPPLEMENTARY INFORMATION:

Purpose and Need. The Lookout Mountain Ranger District has determined that there is a need for fuels and vegetation management activities in the project area by comparing the existing condition to the desired conditions described in the Ochoco National Forest Land and Resource Management Plan. The existing condition of the Howard, Elliot, and Johnson subwatersheds was evaluated in 2004 and documented in the Howard Elliot Johnson Watershed Analysis. Generally speaking, the Watershed Analysis determined that vegetation condition in the subwatersheds has departed from the historic condition in several ways. Important departures include changes in timber species compositions, a reduction in single-stratum late and old structured forest (LOS), an increased risk of large-scale loss of forest to wildfire, an increased risk of insect infestation and/or disease that can impact timber stands, and a decline in the condition of riparian vegetation.

The purpose and need for this proposal is to (1) Maintain and increase the abundance of late and old structure (LOS) stands, especially single-stratum LOS. (2) Reduce wildfire hazard within areas identified as "at risk of loss." (3) Outside of areas identified as "at risk of loss," maintain or restore vegetative and fuel conditions within historic ranges of species composition, structure, and condition. (4) Reduce the susceptibility of the landscape to infestation by insects and disease. (5) Enhance hardwood communities, such as aspen and cottonwood. (6) Increase riparian vegetation and large tree structure in Riparian Habitat Conservation Areas (RHCA's).

Proposed Action. The proposed action includes a variety of management strategies and activities, including commercial harvest with follow-up precommercial thinning and/or slash treatment (4,138 acres), precommercial thinning with slash treatment (2,712 acres), juniper cutting with slash treatment (1,204 acres), hardwood and riparian vegetation treatment (658 acres), underburning where no other treatments are proposed (8,705 acres), riparian planting with no other treatment (35 acres). Implementation of the proposed action would require the following connected actions: reconstruction of approximately four miles of existing roads and construction of approximately 15 miles of temporary roads that would be obliterated upon conclusion of project activities. No new permanent roads would be constructed.
