

practices in southern California, with detailed requirements to be determined during the plan preparation and approval process:

- A Qualified Archaeologist shall contract with a Native American monitor to be involved with the grading monitoring program;
- The Qualified Archaeologist and Native American monitor shall attend the pre-grading meeting with the contractors to explain and coordinate the requirements of the monitoring program;
- During the original cutting of previously undisturbed deposits, the archaeological monitor(s) and Native American monitor(s) shall be onsite full time to perform full-time monitoring. Inspections will vary based on the rate of excavation, the materials excavated, and the presence and abundance of artifacts and features. The frequency and location of inspections will be determined by the Qualified Archaeologist in consultation with the Native American monitor.
- Monitoring of cutting of previously disturbed deposits will be determined by the Principal Investigator.
- In the event that previously unidentified potentially significant cultural resources are discovered, the archaeological monitor(s) shall have the authority to divert or temporarily halt ground disturbance operations in the area of discovery to allow evaluation of potentially significant cultural resources. For significant cultural resources, a Research Design and Data Recovery Program to mitigate impacts shall be prepared by the Principal Investigator and then carried out using professional archaeological methods. Before construction activities are allowed to resume in the affected area, the artifacts shall be recovered and features recorded using professional archaeological methods. The Principal Investigator shall determine the amount of material to be recovered for an adequate artifact sample for analysis.
- If any human bones are discovered, the Principal Investigator shall contact the County Coroner. In the event that the remains are determined to be of Native America origin, the Most Likely Descendant (MLD), as identified by the Native American Heritage Commission, shall be contacted by the Principal Investigator in order to determine proper treatment and disposition of the remains.
- In the event that previously unidentified cultural resources are discovered, all cultural material collected during the grading monitoring program shall be processed and curated at a San Diego facility that meets federal

standards per 36 CFR part 79 and, therefore, would be professionally curated and made available to other archaeologists/researchers for further study. The collections and associated records shall be transferred, including title, to an appropriate curation facility within San Diego County, to be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility identifying that archaeological materials have been received and that all fees have been paid.

6. *Traffic*: Because the Proposed Action is part of the City of San Diego's Otay Mesa Community Plan, the project sponsor would be responsible for participating in the Facilities Benefit Assessment (FBA) and Public Facilities Financing Plan (PFFP) to fund the cost of the community-wide road and intersection improvements. All intersections and roadways planned in the Otay Mesa Community Plan area are forecast to operate at acceptable level of service in the future. The City is in the process of updating the Community Plan.

Determination

Consistent with NEPA (42 U.S.C. 4321 *et seq.*), the regulations of the Council on Environmental Quality (40 CFR 1500–1508), and the Department's implementing regulations (22 CFR Part 161, and in particular 22 CFR 161.7(c)), I find that issuance of a Presidential permit authorizing the construction, connection, operation, and maintenance of the Cross Border Facility, including an international pedestrian bridge, would not have a significant impact on the quality of the human environment. No Environmental Impact Statement will be prepared. A complete analysis of environmental impacts is contained within the EA, as supplemented by subsequent correspondence.

DEPARTMENT OF STATE

[Public Notice 7093]

Bureau of Political-Military Affairs; Lifting of Policy of Denial Regarding Activities of Presidential Airways, Inc. and its Subsidiaries/Affiliates Regulated Under the International Traffic in Arms Regulations (ITAR) (22 CFR Parts 120–130)

ACTION: Notice.

SUMMARY: Notice is hereby given that the Department of State is lifting the policy of denial regarding Presidential Airways, Inc. and its subsidiaries/affiliates imposed on December 18, 2008 (73 FR 77099) pursuant to section 38 of the Arms Export Control Act (AECA) (22 U.S.C. 2778) and section 126.7 of the International Traffic in Arms Regulations (ITAR).

DATES: *Effective Date:* July 7, 2010.

FOR FURTHER INFORMATION CONTACT: Lisa V. Studtmann, Director, Office of Defense Trade Controls Compliance, Bureau of Political-Military Affairs, Department of State (202) 663-2980.

SUPPLEMENTARY INFORMATION: Section 126.7 of the ITAR provides that any application for an export license or other approval under the ITAR may be disapproved, and any license or other approval or exemption granted may be revoked, suspended, or amended without prior notice whenever, among other things, the Department of State believes that 22 U.S.C. 2778, any regulation contained in the ITAR, or the terms of any U.S. Government export authorization (including the terms of a manufacturing license or technical assistance agreement, or export authorization granted pursuant to the Export Administration Act, as amended) has been violated by any party to the export or other person having a significant interest in the transaction; or whenever the Department of State deems such action to be in furtherance of world peace, the national security or the foreign policy of the United States, or is otherwise advisable.

On December 2, 2008, the Department of State placed EP Investments, LLC, now Xe Services LLC (a/k/a Blackwater) (hereafter referred to as Xe), including its subsidiaries or associated companies, under a policy of denial to ensure that Xe is both capable of and willing to comply with the AECA and ITAR.

On April 7, 2010, AAR International, Inc. (AAR) acquired some of Xe's former subsidiaries, including Presidential Airways, Inc.; Aviation Worldwide Services, LLC; Air Quest, Inc.; STI Aviation, Inc.; and EP Aviation, LLC

(together referred to as "Presidential"). The Department of State has determined that AAR has taken appropriate steps to resolve Presidential's alleged violations. AAR has improved ITAR compliance procedures within Presidential and has entered into a civil settlement with the Department to resolve outstanding alleged violations, institute external compliance oversight, and continue and improve compliance measures involving Presidential.

Therefore, the Department rescinds its denial policy against Presidential, effective July 15, 2010.

Dated: July 15, 2010.

Andrew J. Shapiro,

Assistant Secretary, Bureau of Political-Military Affairs, Department of State.

SUPPLEMENTARY INFORMATION:

Title: Voucher for Federal-aid Reimbursements.

OMB Control Number: 2125-0507.

Background: The Federal-aid Highway Program provides for the reimbursement to States for expenditure of State funds for eligible Federal-aid highway projects. The Voucher for Work Performed under Provisions of the Federal Aid and Federal Highway Acts as amended is utilized by the States to provide project financial data regarding the expenditure of State funds and to request progress payments from the FHWA. Title 23 U.S.C. 121(b) requires the submission of vouchers. The specific information required on the voucher is contained in 23 U.S.C. 121 and 117. Two types of submissions are required by recipients. One is a progress voucher where the recipient enters the amounts claimed for each FHWA appropriation, and the other is a final voucher where project costs are classified by work type. An electronic version of the Voucher for Work Performed under Provisions of the Federal Aid Highway Acts, as amended, Form PR-20, is used by all recipients to request progress and final payments.

Respondents: 50 State Transportation Departments, the District of Columbia, Puerto Rico, Guam, American Samoa, and the Virgin Islands.

Frequency: Annually.

Estimated Average Burden per

Response: The respondents electronically submit an estimated total of 12,900 vouchers each year. Each voucher requires an estimated average of 30 minutes to complete.

Estimated Total Annual Burden Hours: 6,450 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the

proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: July 20, 2010.

Judith Kane,

Acting Chief, Management Programs and Analysis Division.
