Background

On March 8, 2005, the Department published a notice in the **Federal Register** (70 FR 11214), inviting applications for new awards for fiscal year (FY) 2005 under the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities (TA&D) program, authorized under section 663 of the Individuals with Disabilities Education Act (IDEA), to support a

Secondary Transition Technical Assistance Center. Based on that notice, the Department made one award for a period of 60 months to the University of North Carolina at Charlotte to carry out the National Secondary Transition Technical Assistance Center (NSTTAC). Currently, the Office of Special Education Programs (OSEP) funds NSTTAC to support the improvement of transition planning, services, and outcomes for youth with disabilities by disseminating information and providing technical assistance (TA) on evidence-based practices with an emphasis on building and sustaining State-level infrastructures of support and building district-level demonstrations of effective transition methods. NSTTAC has demonstrated significant progress in disseminating information on evidence-based practices and providing TA to States and local educational agencies (LEAs) to advance implementation of effective transition planning and services.

NSTTAC's current project period is scheduled to end on December 31, 2010. We do not believe it would be in the public interest to hold new competitions under the TA&D program until the Department has considered changes being made to the Elementary and Secondary Education Act (ESEA) during the process of reauthorizing that Act and the Department has developed a coordinated strategy for the provision of technical assistance that is designed to help States, LEAs, and schools effectively implement key provisions of the ESEA and IDEA and improve educational results for all students. We also have concluded that it would be contrary to the public interest to have a lapse in the provision of technical assistance provided under the TA&D program pending the reauthorization of the ESEA. For these reasons, the Secretary proposes to waive the requirements in 34 CFR 75.250, which prohibit project periods exceeding five years, and the requirements in 34 CFR 75.261(a) and (c), which limit the extension of a project period if the extension involves the obligation of additional Federal funds, and issue a continuation award in the amount of \$1,100,000 to the University of North Carolina at Charlotte (H326J050004) for an additional twelve-month period.

Waiving these regulations and issuing this continuation award would ensure that continued technical assistance is available to assist States and LEAs with effective transition planning and services, as the Department works on reauthorization of the ESEA and designs TA&D competitions that are coordinated

and aligned with the Department's technical assistance priorities.

During the next fiscal year, NSTTAC would continue, update, and expand its work to (1) identify evidence-based practices that provide a foundation for States to improve transition planning and services that enhance post-school outcomes; (2) disseminate information to State personnel, practitioners, researchers, parents, and students regarding effective transition planning and services that improve post-school outcomes; (3) build the capacity of States and LEAs to implement effective transition planning and services that improve post-school outcomes; and (4) assist State educational agencies with collecting data on IDEA Part B State Performance Plan/Annual Performance Report Indicator 13, which assesses States' implementation of comprehensive transition planning and services, and using these data to guide improvement activities.

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed extension of project period and waiver would not have a significant economic impact on a substantial number of small entities. The only entity that would be affected is NSTTAC.

Paperwork Reduction Act of 1995

This proposed extension of project period and waiver does not contain any information collection requirements.
