

Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheading is provided for convenience and customs purposes, the Department's written description of the scope of the merchandise is dispositive.

Final Results of Changed Circumstances Review and Revocation of the Order

Pursuant to sections 751(d)(1) and 782(h)(2) of the Act, the Department may revoke an antidumping duty order after conducting a changed circumstances review under section 751(b) of the Act. Section 751(b)(1) requires a changed circumstances review to be conducted upon the receipt of a request which shows changed circumstances sufficient to warrant a review.

We have determined that the affirmative statement of no interest by the Paint Applicators concerning the *Order*, along with the fact that no other domestic interested party commented on the *Initiation and Preliminary Results*, constitutes sufficient support on the part of substantially all domestic producers of like merchandise to warrant revocation of this *Order*. Therefore, the Department is revoking the *Order* on natural bristle paint brushes and brush heads from the PRC in accordance with sections 751(d)(1) and 782(h)(2) the Act and 19 CFR 351.216(d) and 351.222(g)(1)(i).

Effective Date of Revocation

In accordance with section 751(d)(3) of the Act, and 19 CFR 351.222(g)(4), the Department will instruct CBP to terminate the suspension of liquidation of all unliquidated entries of natural bristle paint brushes and brush heads from the PRC, entered or withdrawn from warehouse, for consumption on or after the publication of these final results in the **Federal Register** and to refund any estimated antidumping duties collected on or after the publication of these final results in the **Federal Register**. The Department will further instruct CBP to refund with interest any estimated duties collected with respect to unliquidated entries of natural bristle paint brushes and brush heads from the PRC, entered or withdrawn from warehouse, for consumption on or after the publication of these final results in the **Federal Register**, in accordance with section 778 of the Act.

This notice is in accordance with section 777(i)(1) of the Act and 19 CFR 351.216(e) and 351.222(g)(3)(vii).

Dated: July 26, 2010.

On July 16, 2010, Northwestern University officials notified the Department that they wished to withdraw the above-referenced application for duty-free entry of a scientific instrument.
