## II. Committee Background

These two statutorily-mandated committees advise PHMSA on proposed safety standards, risk assessments, and safety policies for natural gas pipelines and for hazardous liquid pipelines. Both committees fall under the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. 1) and both are mandated by the pipeline safety law (49 U.S.C. Chap. 601). Each committee consists of 15 members—with membership evenly divided among the Federal and State Government, the regulated industry, and the public. The committees advise PHMSA on technical feasibility, practicability, and cost-effectiveness of each proposed pipeline safety standard.

### III. Preliminary Agenda

The PHMSA staff will brief the committees on several regulatory and policy initiatives including:

- Pipeline safety reauthorization.
- PHMSA accomplishments (National Transportation Safety Board, General Accounting Office, Congressional mandates).
- PHMSA priorities (new construction, damage prevention), and the status of PHMSA rulemaking initiatives.
- Administrative matters of the committee (charter, how we can best conduct business).

**Authority:** 49 U.S.C. 60102, 60115; 60118.

Issued in Washington, DC, on July 27, 2010.

#### Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for *Carex lutea* (Golden Sedge)

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Revised proposed rule; reopening of comment period.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce the reopening of the comment period on our March 10, 2010 (75 FR 11080), proposed rule to designate critical habitat for *Carex lutea* (golden sedge) under the Endangered Species Act of 1973, as amended (Act). We also announce the availability of the draft economic analysis (DEA) associated with the proposed rule. In addition, in this document, we propose to enlarge two previously proposed subunits of critical habitat because we discovered that *Carex lutea* occupies an area at these two subunits that is greater than what we believed when we were preparing the March 10, 2010 proposed rule. We are reopening the comment period on the proposal for an additional 30 days to allow interested parties an opportunity to comment simultaneously on the revised proposed critical habitat designation, the associated DEA, and

our amended required determinations section. Comments previously submitted need not be resubmitted and will be fully considered in preparation of the final rule.

**DATES:** We will consider public comments received or postmarked on or before September 2, 2010. Please note that if you are using the *Federal eRulemaking Portal* (see **ADDRESSES** section, below) the deadline for submitting an electronic comment is 11:59 p.m. Eastern Daylight Savings Time on this date.

**ADDRESSES:** You may submit comments by one of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments to Docket No. FWS-R4-ES-2010-0003.

- U.S. mail or hand-delivery: Public Comments Processing, Attn: FWS-R4-ES-2010-0003; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 N. Fairfax Drive, Suite 222; Arlington, VA 22203.

We will post all comments on <http://www.regulations.gov>. This generally means that we will post any personal information you provide us (see the Public Comments section below for more information).

**FOR FURTHER INFORMATION CONTACT:** Pete Benjamin, Field Supervisor, U.S. Fish and Wildlife Service, Raleigh Fish and Wildlife Office, P.O. #### SUPPLEMENTARY INFORMATION:

##### Public Comments

We will accept written comments and information during this reopened comment period on the proposed designation of critical habitat for *Carex lutea* that we published in the **Federal Register** on March 10, 2010 (75 FR 11080), the two expanded subunits proposed as critical habitat and our amended required determinations section provided in this document, and the draft economic analysis (DEA) of the proposed designation of critical habitat for *Carex lutea*. We will consider information and recommendations from all interested parties. We are particularly interested in comments concerning:

(1) The reasons why we should or should not designate areas as “critical habitat” under section 4 of the Act (16 U.S.C. 1531 *et seq.*), including whether there are threats to *Carex lutea* from human activity, the degree of which can

be expected to increase due to the designation, and whether the benefit of designation would outweigh threats to the species caused by the designation, such that the designation of critical habitat is prudent.

(2) Specific information on:

- The amount and distribution of *Carex lutea*;

- What areas containing features essential to the conservation of the species should be included in the designation and why;

- Special management considerations or protections for the physical and biological features essential to *Carex lutea* conservation that have been identified in the proposed rule that may be needed, including managing for the potential effects of climate change; and

- What areas not currently occupied by the species are essential to the conservation of the species and why.

(3) Specific information on *Carex lutea* and the habitat components (physical and biological features) essential to the conservation of this species.

(4) Any information on the biological or ecological requirements of this species.

(5) Land-use designations and current or planned activities in areas occupied by the species, and their possible impacts on the species and the proposed critical habitat.

(6) Any foreseeable economic, national security, or other potential impacts resulting from the proposed designation and, in particular, any impacts on small entities and the benefits of including or excluding areas that are subject to these impacts.

(7) Whether the benefits of excluding any particular area from critical habitat outweigh the benefits of including that area as critical habitat under section 4(b)(2) of the Act, after considering the potential impacts and benefits of the proposed critical habitat designation.

(8) Whether our approach to designating critical habitat could be improved or modified in any way to provide for greater public participation and understanding, or to assist us in accommodating public concerns and comments.

(9) Information on the extent to which the description of potential economic impacts in the DEA is complete and accurate.

You may submit your comments and materials concerning the proposed rule, this document, or the DEA by one of the methods listed in the **ADDRESSES** section.

If you submitted comments or information on the proposed critical habitat rule for *Carex lutea* that we
