Docket No. 09-AGL-28]

RIN 2120-AA66

Amendment of VOR Federal Airways V-8, V-14, V-38, V-47, V-279, and V-422 in the Vicinity of Findlay, OH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the legal description of the VHF Omnidirectional Range (VOR) Federal Airways V-8, V-14, V-38, V-47, V-279, and V-422 in the vicinity of Findlay, OH. The FAA is taking this action because the Findlay VHF Omnidirectional Range/Tactical Air Navigation (VORTAC), included as part of the V-8, V-14, V-38, V-47, V-279, and V-422 route structure, is being renamed the Flag City VORTAC.

DATES: *Effective Date:* 0901 UTC, November 18, 2010. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual

revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Colby Abbott, Airspace and Rules Group, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending the legal description of six VOR Federal Airways in the vicinity of Findlay, OH. Currently, V-8, V-14, V-38, V-47, V-279, and V-422 have Findlay, OH, [VORTAC] included as part of their route structure. The Findlay VORTAC and the Findlay Airport share the same name and facility identifier (FDY), but are not co-located and are greater than 5 nautical miles apart. To eliminate the possibility of confusion, and a potential flight safety issue, the Findlay VORTAC will be renamed the Flag City VORTAC and assigned a new facility identifier (FBC). All VOR Federal Airways with Findlay, OH, [VORTAC] included in their legal description will be amended to reflect the Flag City, OH, [VORTAC] name change. The name change of the VORTAC will coincide with the effective date of this rulemaking action.

Additionally, this action makes administrative corrections to the V-8 and V-14 legal descriptions. Specifically, the V-8 description is amended to reflect the termination point "DC" as "Washington, DC", and the V-14 description is amended to reflect the navigation aid "DRYER" as "Dryer". These administrative corrections have no operational impact to the existing airways.

Since this action merely involves editorial changes in the legal descriptions of VOR Federal Airways, and does not involve a change in the dimensions or operating requirements of that airspace, notice and public procedures under 5 U.S.C. 553(b) are unnecessary.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated

impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the legal description of six VOR Federal Airways in the vicinity of Findlay, OH.

Domestic VOR Federal Airways are published in paragraph 6010(a) of FAA Order 7400.9T, signed August 27, 2009, and effective September 15, 2009, which is incorporated by reference in 14 CFR 71.1. The domestic VOR Federal Airways listed in this document will be published subsequently in the Order.

Environmental Review

There are no changes to the lateral limits. Therefore, the FAA has determined that this action is not subject to environmental assessments and procedures in accordance with FAA Order 1050.1E, Policies and Procedures for Considering Environmental Impacts, and the National Environmental Policy Act.

TRICARE; Extended Care Health Option

AGENCY: Office of the Secretary, Department of Defense.

ACTION: Final rule.

SUMMARY: The Department of Defense is publishing this final rule to implement the requirements enacted by Congress in Section 732 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 which changes the limit of the Government's share of providing certain benefits under the Extended Care Health Option (ECHO) from \$2,500 per month to \$36,000 per year, and for other non-legislated changes to the ECHO.

DATES: Effective Date: This rule is effective August 9, 2010 and applicable October 14, 2008, and all claims for ECHO benefits provided on or after that date will be reprocessed retroactively to that date as necessary.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Kottyan, TRICARE Management Activity, Medical Benefits and Reimbursement Branch, telephone (303) 676-3520.

SUPPLEMENTARY INFORMATION:

I. Background

Section 1079 of Title 10, United States Code (U.S.C.), as amended by Section 701(b) of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2002 [Pub. L. 107-107], required the Department of Defense to establish a program of extended benefits for eligible dependents. That program, known as the Extended Care Health Option (ECHO), replaced the Program

for Persons with Disabilities (PFPWD) and was implemented on September 1, 2005. The primary purpose of the ECHO is to provide eligible beneficiaries with benefits that are not available through the TRICARE Basic Program. The term "eligible beneficiary" means an individual who is a dependent of an active duty service member (ADSM) or is a transitional survivor of a deceased ADSM and who has a qualifying condition. Qualifying conditions include moderate or severe mental retardation, serious physical disability, or an extraordinary physical or psychological condition. The benefits available through the ECHO are intended to assist in the reduction of the disabling effects of an ECHO qualifying condition.

Section 1079(e)(3) and (4) authorizes benefits, including training, rehabilitation, special education, assistive technology devices, institutional care in private, nonprofit, public, and State institutions and facilities and, if appropriate, transportation to and from such institutions and facilities in which the beneficiary is receiving institutional care.

Section 1079(f)(2) limited the Government's liability for benefits authorized by Section 1079(e)(3) and (4) to \$2,500 per month and required that the beneficiary's sponsor be liable for any amount of the monthly total cost for those benefits that exceeded the Government's limit. Section 1079(e) also authorized the extended benefits program to provide additional benefits including diagnostic services, inpatient and outpatient care, comprehensive home health care, respite care, and other services and supplies as determined appropriate by the Secretary. However, Section 1079(f) did not limit the Government's liability for those additional benefits. By final rule published in the Federal Register (FR) on August 20, 2004, (69 FR 51559) the Department established that those additional benefits accrued to the \$2,500 per month limit.

Section 732 of the Duncan Hunter NDAA for FY 2009 [Pub. L. 110-417] (NDAA 2009) changed the limit of the Government's liability for benefits authorized under Section 1079(e)(3) and (4) from \$2,500 per month to \$36,000 per year, prorated as determined by the Secretary. This rule does not prorate the annual limit of Government liability. Section 732 does not affect other benefits authorized under Section 1079(e).

This rule changes the Government's share of providing all benefits available through the Extended Care Health
