

would not have a significant effect on these elements, and the analyses of these issues are detailed in the environmental consequences section. The Project site is not listed as a toxic site.

Although significant impacts to biological resources (*i.e.*, surfgrass) and recreation (*i.e.*, surfing) are not likely to occur due to the footprint and temporary nature of the Project, mitigation measures will be implemented if monitoring demonstrates impacts are significant. If a substantial amount of surfgrass were lost, impacts may not be mitigable to not significant. If adverse impacts to surfgrass beyond those anticipated for the species to recover are observed from the monitoring, subsequent nourishment activities will be modified to avoid or minimize these impacts as part of adaptive management. If adverse impacts still are observed after all reasonable attempts to avoid or minimize impacts have been exhausted, additional renourishment would not occur until impacted surfgrass has recovered or a mitigation measure is accepted. A consistently successful method to transplant surfgrass has not yet been devised, although recent experiments may provide new options. Creation of shallow habitat mitigation reefs may ultimately replace the lost surfgrass if surfgrass eventually colonizes the reefs; however, such colonization is uncertain. Likewise, if surfing is demonstrated to be significantly impacted, mitigation measures will be implemented; however, creation of an artificial surfing reef has not yet been successful off the coast of California.

The U.S. Army Corps of Engineers, Los Angeles District, and City of San Clemente are soliciting comments on the adequacy and completeness of this Draft Joint EIS/EIR. You may comment on the draft environmental document by providing written comments to Mr. Thomas W. Keeney prior to the close of the public comment on September 23, 2010, at 5 p.m. Please limit comments to environmental issues, such as traffic, biology, noise, etc. A public meeting will be held at the Community Development Office, 910 Calle Negocio, San Clemente, CA 92673 on August 19, 2010, at 7 p.m.

DEPARTMENT OF EDUCATION

Office of Special Education and Rehabilitative Services—Special Demonstration Programs—Model Demonstration Project To Improve Outcomes for Individuals Receiving Social Security Disability Insurance (SSDI) Served by State Vocational Rehabilitation (VR) Agencies

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice of final priority.

Catalog of Federal Domestic Assistance (CFDA) Number: 84.235L.

SUMMARY: The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority under the Special Demonstration Programs to fund a project to identify, develop, and implement a model demonstration project to improve outcomes for individuals receiving Social Security Disability Insurance (SSDI) served by State vocational rehabilitation (VR) agencies. The Assistant Secretary may use this priority for competitions in fiscal year (FY) 2010 and later years. We take this action to improve employment outcomes for SSDI beneficiaries receiving services from State VR agencies.

DATES: *Effective Date:* This priority is effective September 8, 2010.

FOR FURTHER INFORMATION CONTACT: Thomas Finch, U.S. Department of Education, 400 Maryland Avenue, SW., room 5147, Potomac Center Plaza (PCP), Washington, DC 20202-2800. Telephone: (202) 245-7343 or by e-mail: tom.finch@ed.gov.

If you use a telecommunications device for the deaf (TDD), call the Federal Relay Service (FRS), toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION:

Purpose of Program: The purpose of this program is to expand and improve the provision of rehabilitation and other services authorized under the Rehabilitation Act of 1973, as amended (the Rehabilitation Act), or to support activities that increase the provision, extent, availability, scope, and quality of

rehabilitation services provided under the Rehabilitation Act.

Program Authority: 29 U.S.C. 773(b).

Applicable Program Regulations: 34 CFR part 373.

We published a notice of proposed priority for this program in the **Federal Register** on March 26, 2010 (75 FR 14582). That notice contained background information and our reasons for proposing the particular priority.

Except for minor editorial revisions, there are no differences between the proposed priority and this final priority.

Public Comment: In response to our invitation in the notice of proposed priority, four parties submitted comments on the proposed priority. An analysis of the comments and of any changes in the priority since publication of the proposed priority follows.

Generally, we do not address technical and other minor editorial changes and suggested changes the law does not authorize us to make under the applicable statutory authority.

Analysis of Comments and Changes

Comment: None.

Discussion: Upon further internal review of the text of the proposed priority, we identified a number of small editorial changes that we believe make the priority clearer.

Changes: In addition to making a number of small clarifying changes, we have revised the bulleted paragraphs of the priority to identify them as paragraphs (a), (b), and (c) so that we can more easily cross-reference the requirements contained in those paragraphs.

Comment: One commenter suggested that the priority should permit the grantee to identify effective VR practices by conducting in-depth case studies of State VR agencies, including State VR agencies with poor and satisfactory outcomes, through analysis of RSA-911 data.

Discussion: The purpose of this priority is to conduct an in-depth analysis of factors that contribute to high performance in State VR agencies. While there may be worthwhile information to be gained by examining agencies with poor and satisfactory outcomes, the Department seeks to use this priority to target high-performing States, if after preliminary analyses it is determined that there are a number of high-performing States to investigate. Applicants are free to propose the process that will be used to identify States that are high-performing. Nothing in this priority precludes an applicant from proposing a project that includes comparing high-performing States with
