B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁸ and subparagraph (f)(2) of Rule 19b-4⁹ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62628; File No. SR-Phlx-2010-107]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by NASDAQ OMX PHLX, Inc. Relating to Making Permanent the Sponsored Access Pilot Program

August 3, 2010.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹, and Rule 19b-4² thereunder, notice is hereby given that on July 28, 2010, NASDAQ OMX PHLX, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed

rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to make permanent its sponsored access rule, Rule 1094. The current pilot expires on September 15, 2010.

The text of the proposed rule change is available on the Exchange's Web site at <http://www.nasdaqtrader.com/micro.aspx?id=PHLXRulefilings>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to attract additional business by making permanent its sponsored access rule, which is similar to that of other exchanges. Since the inception of the rule as a pilot, many member organizations have now availed themselves of the program. The Exchange believes that making the program permanent should help attract even more users, especially because other exchanges' similar rules are not pilot programs.

A Sponsored Participant is a non-member of the Exchange, such as an institutional investor, that gains access to the Exchange and trades under a Sponsoring Member's execution and clearing identity pursuant to a sponsorship arrangement between such non-member and a member organization. Specifically, the Exchange proposes to permit Sponsored Participants to be sponsored by

Sponsoring Member Organizations, and thereby access the Exchange, subject to certain requirements. These requirements are intended to confirm that the Sponsored Participant is required to and had procedures in place to comply with Exchange rules, and that the Sponsoring Member Organization takes responsibility for the Sponsored Participant's activity on the Exchange.

First, the Sponsored Participant and its Sponsoring Member Organization must have entered into and maintained an Access Agreement with the Exchange. The Sponsoring Member Organization must designate the Sponsored Participant by name in an addendum to the Access Agreement.

Second, there must be a Sponsored Participant Agreement between the Sponsoring Member Organization and the Sponsored Participant that contains the following sponsorship provisions, enumerated in full in Rule 1094(b)(ii):

(i) The orders of the Sponsored Participant are binding in all respects on the Sponsoring Member Organization;

(ii) The Sponsoring Member Organization is responsible for the actions of the Sponsored Participant;

(iii) In addition to the Sponsoring Member Organization being required to comply with the Exchange Certificate of Incorporation, By-laws, Rules and procedures of the Exchange, the Sponsored Participant shall do so as if such Sponsored Participant were an Exchange member organization;

(iv) The Sponsored Participant shall maintain, keep current and provide to the Sponsoring Member Organization a list of individuals authorized to obtain access to the Exchange on behalf of the Sponsored Participant;

(v) The Sponsored Participant shall familiarize its authorized individuals with all of the Sponsored Participant's obligations under this Rule and will assure that they receive appropriate training prior to any use or access to the Exchange;

(vi) The Sponsored Participant may not permit anyone other than authorized individuals to use or obtain access to the Exchange;³

(vii) The Sponsored Participant shall take reasonable security precautions to prevent unauthorized use or access to the Exchange, including unauthorized entry of information into the Exchange, and agrees that it is responsible for any and all orders, trades and other messages and instructions entered,

³ If the Exchange determines that an authorized individual has caused a Member Organization to violate the Exchange's Rules, the Exchange could direct the Member Organization to suspend or withdraw the person's status as an authorized individual.

transmitted or received under identifiers, passwords and security codes of authorized individuals, and for the trading and other consequences thereof;

(viii) The Sponsored Participant acknowledges its responsibility to establish adequate procedures and controls that permit it to effectively monitor its employees', agents' and Participants' use and access to the Exchange for compliance with the terms of this agreement;

(ix) The Sponsored Participant shall pay when due all amounts, if any, payable to Sponsoring Member Organization, the Exchange, or any other third parties that arise from the Sponsored Participant's access to and use of the Exchange. Such amounts include, but are not limited to applicable exchange and regulatory fees.

Third, the Sponsoring Member Organization must provide the Exchange with a Sponsored Participant Addendum to its Access Agreement acknowledging its responsibility for the orders, executions and actions of its Sponsored Participant at issue.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act⁴ in general, and furthers the objectives of Section 6(b)(5) of the Act⁵ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest by helping market participants seeking access to a marketplace. Given that it is substantially similar to the rules of several other exchanges and has been in effect for several prior pilot periods,⁶ the proposal to make permanent this pilot program does not appear to raise any novel regulatory issues.⁷ Because

Of course, once such a rule becomes effective, the Exchange would comply with it and modify its rules accordingly. In the interim, the Exchange believes that making its Rule 1094 permanent sends a message to its users that the Exchange's sponsored access program is

the sponsored access rule has been relied upon by many member organizations, the Exchange believes that the changes proposed herein should serve to help market participants seeking access to its marketplace.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act⁸ and Rule 19b-4(f)(6)⁹ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62638; File No. SR-BX-2010-043]

Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Order Approving a Proposed Rule Change Relating to Pricing for Direct Circuit Connections

August 4, 2010.

On June 24, 2010, NASDAQ OMX BX, Inc. ("BX" or the "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to establish pricing for 10Gb direct circuit connections and codify pricing for 1Gb direct circuit connections for customers who are not co-located in BX's datacenter. The proposed rule change was published for comment in the **Federal Register** on July 2, 2010.³ The Commission received no comment letters on the proposal. This order approves the proposed rule change.

In its proposal, BX proposed to establish fees for direct 10Gb circuit connections, and codify fees for direct circuit connections capable of supporting up to 1Gb, for customers who are not co-located at the Exchange's datacenter. BX represented that it already makes available to co-located customers a 10Gb circuit connection and charges for each a \$1000 initial installation charge as well as an ongoing monthly fee of \$5000. The Exchange proposed to establish the same fees for non-co-located customers with a 10Gb circuit connection.⁴

BX represented that it also already makes available to both co-located and non-co-located customers direct connections capable of supporting up to 1Gb, with per connection monthly fees of \$500 for co-located customers and \$1000 for non co-located customers. According to the Exchange, monthly fees are higher for non-co-located customers because direct connections require BX to provide cabinet space and middleware for those customers' third-party vendors to connect into the datacenter and, ultimately, to the

trading system. Finally, the Exchange represented that for non-co-located customers, it charges an optional installation fee of \$925 if the customer chooses to use an on-site router.

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁵ In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(4) of the Act,⁶ which requires that the rules of a national securities exchange provide for the equitable allocation of reasonable dues, fees and other charges among its members and issuers and other persons using its facilities, and with Section 6(b)(5) of the Act,⁷ which requires, among other things, that the rules of a national securities exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest, and not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission believes that the proposed fees for 10Gb and 1Gb direct circuit connections are reasonable and equitably allocated insofar as they are applied on the same terms to similarly situated market participants. In addition, the Commission believes that the connectivity options described in the proposed rule change are not unfairly discriminatory because BX makes the 10Gb and 1Gb direct circuit connections uniformly available to all non-co-located customers who voluntarily request them and pay the fees as detailed in the proposal. As represented by BX, these fees are uniform for all such customers and are either the same as fees charged to co-located customers, or vary due to different costs incurred by BX associated with providing service to the two different customer types. Finally, the Commission believes that the proposal will further the protection of investors and the public interest because it will provide greater transparency regarding the connectivity options available to market participants.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁸ that the

³ See Securities Exchange Act Release No. 62393 (July 2, 2010), 75 FR 38571 ("Notice").

⁴ According to the Exchange, BX provides an additional 1Gb copper connection option for co-located customers. BX represented that, given the technological constraints of copper connections over longer distances, it does not offer a copper connection option to users outside of its datacenter.

⁵ In approving this proposal, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).
