

POLICY JUSTIFICATIONIsrael – Unleaded Gasoline, JP-8 Aviation Jet Fuel, and Diesel Fuel

The Government of Israel has requested a possible sale of 60,000,000 gallons of unleaded gasoline, 284,000,000 gallons of JP-8 aviation jet fuel, and 100,000,000 gallons of diesel fuel. The estimated cost is \$2.0 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale of the JP-8 aviation fuel will enable Israel to maintain the operational capability of its aircraft inventory. The unleaded gasoline and diesel fuel will be used for ground forces' vehicles and other equipment used in keeping peace and security in the region. Israel will have no difficulty absorbing this additional fuel into its armed forces.

The proposed sale of these three types of fuel will not alter the basic military balance in the region.

The vendors are unknown at this time due to the competitive bid process for the supply source(s). There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
