Bureau of Reclamation

Northwest Area Water Supply Project, North Dakota

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of intent to prepare a supplemental environmental impact statement.

SUMMARY: The Bureau of Reclamation (Reclamation) is commencing work under the National Environmental Policy Act of 1969 (NEPA) on a

Supplemental Environmental Impact Statement (EIS) for the Northwest Area Water Supply Project (NAWS Project), a Federal reclamation project, located in North Dakota. A Final EIS and Record of Decision (ROD) for the NAWS Project were previously completed in December 2008 and January 2009, respectively. The Final EIS and ROD were challenged in U.S. District Court. A subsequent court order found the Final EIS to be insufficient in two areas. Therefore a supplement is being prepared to address those areas in more detail and any others that interested parties or the public may identify warranting additional analysis, as well as to re-examine and update, to the extent necessary, prior NEPA analysis that has been completed in connection with the NAWS Project to date. This notice is being published to inform the public about the preparation of the Supplemental EIS and to initiate a formal scoping period for obtaining public comment. The scoping period for the supplement will conclude 60 days following publication of this notice. Public meetings are scheduled as part of the scoping process.

Reclamation invites all interested parties to submit written comments or suggestions during the scoping period related to significant issues, environmental impacts, and reasonable alternatives to the proposed action. Reclamation will provide a separate project information document that describes the Supplemental EIS actions and how the public can become involved and participate. The project information document will provide details relative to the Supplemental EIS and is intended to assist the public in providing comments during the scoping period.

DATES: Public scoping meetings will be held during September 2010. See the Supplemental Information section for dates and locations of these meetings. Individuals who want to receive the additional project information document should contact Reclamation within 15 days following publication of this notice. Written or e-mailed comments on the scope of issues and alternatives should be received by October 12, 2010. Comments received
