### Overview of This Information Collection

(1) Type of Information Collection: Extension with Change of a previously approved collection.

(2) Title of the Form/Collection: SENTRY Early Warning and Response System.

(3) Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: Form Number: NDIC Form # N/A.

(4) The 2004 National Synthetic Drugs Action Plan designated NDIC the lead agency for developing an early warning and response system. This instrument is critical for NDIC to detect emerging drug abuse and production trends and thereafter notify law enforcement demand authorities and prepared associated reports.

From February 2009 until March 2010, the SENTRY Synthetic Drug Early Warning System was available only to specifically targeted groups including chemists; education providers (teachers, administrators, school resource officers, or school nurses); law enforcement personnel; treatment providers (physicians specializing in drug abuse issues); medical service personnel (physicians, nurses, emergency medical technicians, medical examiners); and other specific groups such as drug intelligence analysts.

At this juncture, the National Drug Intelligence Center (NDIC) has determined that some SENTRY information may be of interest to members of the general public. As of June 2010, all SENTRY DrugAlert Watches, DrugAlert Warnings, and News and Bulletins have been made accessible to the general public via the NDIC public facing Web site. Additionally, NDIC will make the SENTRY Geographical Information System Map accessible to the general public, with a truncated Information Drop that includes: color-coded substance categories, submission/event details and outcomes (if known), and a general geographical locality of the submission/event.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: It is estimated that approximately 300 respondents will submit a tip requiring approximately 15 minutes. Use of the system is expected to increase significantly.

(6) As estimate of the total public burden (in hours) associated with the collection: There is an estimated 75 total

annual burden hours associated with this collection.

### Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act

Notice is hereby given that on August 6, 2010, a proposed Consent Decree in *United States v. Conroe Creosoting Company, et al.*, C.A. No. 4: 10-cv-02810 (S.D. Tex.), was lodged with the United States District Court for the Southern District of Texas. The Consent Decree resolves claims of the United States and the State of Texas against the Conroe Creosoting Company ("Conroe") for recovery of response costs, pursuant to Section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9607(a), and Section 361.197 of the Texas Solid Waste Disposal Act, Tex. Health & Safety Code § 361.197. Between 1946 and 1997 Conroe operated a wood-treating facility at the Conroe Creosoting Site, located in Montgomery County, Texas. As a result of these activities, the Site became contaminated with various hazardous substances. The United States and the State incurred response costs in connection with cleaning up the Site. In addition, pursuant to 28 U.S.C. 3304, 3306, and the Texas Uniform Fraudulent Transfer Act, Tex. Bus. Com. Code § 24.001, *et seq.*, the Consent Decree resolves the United States' and the State's claims against Conroe and persons to whom some of Conroe's assets were improperly paid or transferred. The United States and the State contend that these payments or transfers were made or allowed by Conroe as a means of Conroe avoiding paying a debt (response costs) owed to the United States and the State.

Under the Consent Decree, defendant Conroe and the other persons named in the Complaint will make a \$200,000 cash payment to the United States and the State in partial reimbursement of response costs incurred by the United

States and the State. In addition, Conroe has agreed to sell several parcels of land its own, including the property constituting the Site, and to pay the proceeds therefrom to the United States and the State. Finally, Conroe has agreed to determine whether any insurance policies it has had over the years provide for recovery of response costs, to pursue claims under any applicable policies, and to pay any proceeds recovered through such policies to the United States and the State in accordance with the provisions of the Consent Decree.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Acting Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to [pubcomment-ees.enrd@usdoj.gov](mailto:pubcomment-ees.enrd@usdoj.gov), or mailed to P.O. The Consent Decree may be examined at the Office of the United States Attorney, 515 Rusk Avenue, Suite 1102, Houston, Texas, and at U.S. EPA Region 6, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy of the Consent Decree from the Consent Decree Library, please enclose a check in the amount of \$14.50 (25 cents per page production costs) for a copy of the Consent Decree without the exhibits thereto, or \$25.50 with all exhibits thereto.
