

under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes controlled airspace at Kalaupapa Airport.

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the FAA Order 7400.9T, Airspace Designations and Reporting Points, signed August 27, 2009, and effective September 15, 2009 is amended as follows:

Reopening of Comment Period

On May 7, 2010, we published a notice of proposed rulemaking (NPRM) in the **Federal Register** (75 FR 25137) proposing changes in the Standard Numbering System, Vessel Identification System, and Boating Accident Report Database that, collectively, are intended to improve recreational boating safety efforts, enhance law enforcement capabilities, advance maritime security, and clarify requirements for all stakeholders. The NPRM announced a 90 day public comment period that closed on August 5, 2010.

We have received comments from the National Association of State Boating Law Administrators (NASBLA) and the National Marine Manufacturer's Association (NMMA), each requesting a 90 day extension of the comment period. The NASBLA comment letter noted that the NPRM would be a topic of discussion during their annual conference, which will be held from September 10-14, 2010. Since the comment period has already closed, the Coast Guard will reopen it for an additional period of 60 days. The Coast Guard has determined that reopening the comment period for a period of 60 days is consistent with the public interest. This will allow the comment period to coincide with the NASBLA annual conference and allow members to discuss the NPRM and submit comments after the conference. Adding 60 days to the original 90 day comment period strikes a balance between allowing adequate time to comment on the NPRM and allowing the agency to move forward with the rulemaking project. Accordingly, the comment

period is reopened until October 15, 2010.

This document is issued under authority of 5 U.S.C. 553.

Dated: August 9, 2010.

Kevin S. Cook,

Rear Admiral, U.S. Coast Guard, Director of Prevention Policy.
