

Energy Regulatory Commission (Commission) directed staff to convene a technical conference regarding California Independent System Operator Corporation's (CAISO) proposed Revised Transmission Planning Process (RTPP).¹ Take notice that such conference will be held on August 24, 2010 at the Commission's headquarters at 888 First Street, Washington, DC 20426, beginning at 9 a.m. (EDT) in the Commission Meeting Room. The technical conference will be led by Commission staff. Commissioners may attend the conference.

The purpose of the technical conference is to discuss the issues raised by CAISO's proposed revisions to its Open Access Transmission Tariff (Tariff) to implement its RTPP in Docket No. ER10-1401-000 and obtain additional information regarding CAISO's proposal. Because CAISO's RTPP filing presents issues that may be interrelated with the Petition for Declaratory Order filed by Green Energy Express LLC and 21st Century Transmission Holdings, LLC, in Docket No. EL10-76-000, parties are hereby notified that issues pending in Docket No. EL10-76-000 may be discussed at the technical conference.

CAISO and the parties that choose to participate in the conference should be prepared to address the following topics, among others:

- How the RTPP incorporates participation from all stakeholders, including the California Transmission Planning Group, and complies with the transmission planning principles of Order No. 890;
- How the various categories of transmission projects will be defined and differentiated;
- To what extent non-incumbent transmission developers can sponsor transmission projects identified in the RTPP and become participating transmission owners in the CAISO;
- The selection criteria for projects in the various transmission categories, including which proposals have priority during the evaluation process;
- How projects submitted during the 2008/2009 Request Window will be processed, with respect to both the current Tariff and the proposed RTPP; and
- The integration and coordination of RTPP studies with those done under the Large Generator Interconnection Process, and related assumptions, data, and planning criteria.

A subsequent notice will be issued by the Commission providing an agenda of the conference.

A free webcast of this event will be available through <http://www.ferc.gov>. Anyone with internet access who desires to listen to this event can do so by navigating <http://www.ferc.gov>'s Calendar of Events and locating this event in the calendar. The event will contain a link to its webcast. The Capitol Connection provides technical support for the webcasts and offers the option of listening to the meeting via phone-bridge for a fee. If you have any questions, visit <http://www.CapitolConnection.org> or call 703-993-3100.

FERC conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an e-mail to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-208-8659 (TTY); or send a Fax to 202-208-2106 with the required accommodations.

All parties are permitted to attend. For more information on this conference, please contact Robert Petrocelli at Robert.Petrocelli@ferc.gov or (202) 502-8447, or Katie Detweiler at Katie.Detweiler@ferc.gov or (202) 502-6424.

Southern California Edison Company; Notice of Petition for Declaratory Order

August 9, 2010.

Take notice that on August 4, 2010, pursuant to section 207 of the Rules of Practice and Procedure of the Federal Energy Regulation Commission (Commission), 18 CFR 385.207(2010), Southern California Edison Company (SCE) filed a Petition for Declaratory Order for Incentive Rate Treatments, requesting the Commission to approve certain incentive rate treatments for the proposed Lugo-Pisgah Transmission and the Red Bluff Substation Projects, they are planning to construct that will facilitate the development of roughly 2,450 MW of solar generation. In addition, SCE requests a declaration that the facilities will be network facilities eligible for rolled-in rate treatment.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on September 3, 2010.

Music Mountain Hydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

August 9, 2010.

On May 18, 2010, Music Mountain Hydro, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Music

¹ *Cal. Indep. Sys. Operator Corp.*, 132 FERC ¶ 61,067 (2010).

Mountain Pumped Storage Hydroelectric Project, located in Mohave County, in the state of Arizona. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following developments:

(1) Two artificial, lined reservoirs joined by approximately 10,430 feet of conduit; (2) an upper dam with a height of 160 ft and 1,848 ft length at crest; (3) a lower embankment with a height of 50 ft and 6,336 ft at length of crest; (4) an upper reservoir having a surface area of 112 acres and a storage capacity of 6,885 acre-feet and maximum water surface elevation of 5,715 feet mean sea level; (5) a lower reservoir having a surface area of 69 acres and a storage capacity of 6,885 acre-feet and maximum water surface elevation of 4,940 feet mean sea level; (6) a proposed powerhouse containing three new pump/turbine generating units having an installed capacity of 350-megawatts; (7) dependent on the interconnection; a proposed 1-mile, single-circuit 500 kilovolt transmission line, an 8.5 mile, single-circuit 500 kilovolt transmission line, or an 8.5 mile, single-circuit 345 kilovolt transmission line. The proposed development would have an average annual generation of 1,073,100 megawatt-hours.

Stakeholder Meeting Regarding Re-Evaluation of Currently Approved Total Coliform Analytical Methods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) is hosting three public Web conferences during which the Agency will have a technical dialogue with stakeholders regarding re-evaluation of currently approved Total Coliform Rule (TCR) analytical methods. At these meetings, stakeholders will be given an opportunity to discuss potential elements of a method re-evaluation study, such as developing a reference coliform/non-coliform library for use in evaluation of method performance, setting method performance acceptance criteria, and/or revising the Alternate Test Protocol (ATP). These meetings are follow-up to the public stakeholder meeting held on May 11-12, 2010. The proposed Revised Total Coliform Rule (RTCR) was published in the **Federal Register** on July 14, 2010.

DATES: The first public Web conference will be held on Wednesday, September 8, 2010, (10 a.m. to 3 p.m., Eastern Time (ET)). To register and receive the call-in information and meeting agenda for the September 8th Web conference, attendees should contact Cesar Cordero at 202-564-3716 or by e-mail to cordero.cesar@epa.gov no later than September 1, 2010. The second and third of these Web conference calls will be held on October 5, and November 4, 2010 (10 a.m. to 3 p.m., ET). To register and receive call-in information and

meeting agendas for the October 5 and November 4 meetings, participants should contact Cesar Cordero no later than September 29 and October 27, respectively.

FOR FURTHER INFORMATION CONTACT:

Participants should contact Cesar Cordero at 202-564-3716 or by e-mail to cordero.cesar@epa.gov for general inquiries about this meeting and teleconference information. Participants should contact Sandhya Parshionikar at 513-569-7123 or by e-mail to parshionikar.sandhya@epa.gov for technical information.

SUPPLEMENTARY INFORMATION: *Special Accommodations:* Please contact Cesar Cordero at (202) 564-3716 or by e-mail to cordero.cesar@epa.gov for information on access or special accommodations for individuals with disabilities. Please contact Mr. Cordero at least 10 days prior to the meeting to give EPA time to address your request.
