

Beech Brook is a concern for public safety and stream health. Finally, our biological program would be enhanced through partnerships that would increase our ability to conduct surveys and long-term monitoring.

Alternative C is similar in many respects to Alternative B, but proposes more intensive forest management and wildlife dependent recreation, with a philosophy of maintaining the character and history of the forest, to the extent that it does not compromise the refuge purposes and goals. Generally, white pine (*Pinus strobus*) and other native species would be encouraged to regenerate. The addition of permanent staff would enhance the visitor services program through a much broader array of programming and outreach. In addition to the trail and signage improvements proposed with Alternative B, under Alternative C we would improve the Ecology Trail to be compliant with the Americans with Disabilities Act and lead to a viewing platform at the lakeshore. Both fishing and hunting would be added as new public uses at the refuge. Biological programs would incorporate more surveys and the ability to conduct habitat improvements.

Comments

We solicited comments on the draft CCP/EA for a 30-day period of public review and comment from February 18 to March 22, 2010, and held a public meeting on March 11, 2010, in Newbury, New Hampshire. We received 18 unique letters and oral comments representing individuals, organizations, and State agencies. Appendix F in the final CCP includes a summary of those comments and our responses to them.

Selected Alternative

After considering the comments we received on our draft CCP/EA, we have selected Alternative B for implementation for several reasons. Alternative B comprises the mix of actions that, in our professional judgment, works best towards achieving refuge purposes, our vision and goals, and the goals of other State and regional conservation plans. We also believe it most effectively addresses the key issues raised during the planning process. The basis of our decision is detailed in Appendix G of the CCP.
