DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Maryland Transit Administration

Waiver Petition Docket Number FRA-2010-0128

The Maryland Transit Administration (MTA), on behalf of the Maryland Area Regional Commuter (MARC) train service, seeks a waiver of compliance from the Locomotive Safety Standards at 49 CFR 229.129(b)(2), which require that the sound level of locomotive horns manufactured before September 18, 2006, be tested before June 24, 2010. MARC owns 55 locomotives and 31 cab car locomotives, a total of 86 locomotive horns that required testing. Of the 86 locomotive horns, 43 (50 percent) have been tested. MTA states in their request that there are a number of reasons that the testing has not progressed as rapidly as needed to meet the requirement: Site requirements, weather conditions, and community noise complaints.

MTA requests that the requirement to complete testing of horns on locomotives built prior to September 18, 2006, be extended to December 31, 2010.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
