4770. *Reserved*[Nasdaq Crossing Network

(a) Definitions. For the purposes of this rule the term:

(1) “Nasdaq Reference Price Cross” shall mean the process for executing orders at a predetermined reference price at a randomly selected point in time during a five-second trading window beginning at 10:45 a.m., 12:45 p.m. and 2:45 p.m. Eastern Time during the regular hours session and at 4:30 p.m. during the after hours session.

(2) “Nasdaq Reference Price Cross eligible securities” shall mean Nasdaq-listed securities and securities listed on the New York Stock Exchange, the American Stock Exchange or a regional exchange.

(3) (A) “Reference Price Cross Order” or “RPC” shall mean a market or limit order to buy or sell in Nasdaq Reference Price eligible securities that may be executed only during a Nasdaq Reference Price Cross. RPC orders shall not be displayed and must be designated with a time-in-force value to participate either:

(i) in the next scheduled regular hours cross with unexecuted shares being immediately canceled back to the market participant after that cross (NXT);

(ii) in all remaining crosses during the trading day with unexecuted shares being immediately canceled back to the market participant after the final regular hours cross (REG); or

(iii) in all remaining crosses in the current day with unexecuted shares immediately canceled back to the market participant after the after hours cross (ALX).

(B) Starting at 7:30 a.m. Eastern Time until the time of the last after hours session Reference Price Cross, participants may enter, cancel or correct RPC orders, but such orders shall not be available for execution until the next eligible Reference Price Cross. RPC orders must be entered in round lots with a minimum size of one round lot and may designate a minimum acceptable execution quantity. All RPC orders must be available for automatic execution.

(b) Processing of Nasdaq Reference Price Cross.

(1) Each Nasdaq Reference Price Cross shall occur during the regular hours session or the after hours session window commencing at such times as may be designated by Nasdaq upon prior notice to market participants.

(2) Nasdaq Reference Price Crosses that occur during the regular hours session shall be executed at the midpoint of the national best bid and offer, trade reported without identifying the contra party, and disseminated via the consolidated tape.

(3) Nasdaq Reference Price Crosses that occur during the after hours session shall execute at the Nasdaq Official Closing Price for Nasdaq-listed securities or at the official closing price of the primary market for securities listed on the New York Stock Exchange, the American Stock Exchange or a regional exchange, shall be trade reported without identifying the contra party, and disseminated via the consolidated tape.

(4) RPC orders will be allocated on a pro-rata basis, such that shares will be allocated pro-rata in round lots to eligible orders based on the original size of the order. If additional shares remain after the initial pro-rata allocation, those shares will continue to be allocated pro-rata to eligible orders until a number of round lots remain that is less than the number of eligible orders. Any remaining shares will be allocated to the order which has designated the smallest minimum acceptable execution quantity. If more than one such order exists, any remaining shares will be allocated to the oldest eligible order. If the allocation to an eligible order would be less than the minimum acceptable execution quantity for that order, the order shall not be eligible for execution in that cross.

(5) If the reference price described in subparagraph (3) above is outside the benchmarks established by Nasdaq by a threshold amount at the time an after hours cross is scheduled to occur, the Nasdaq Reference Price Cross shall not occur for that security. Nasdaq management shall set and modify such benchmarks and thresholds from time to time upon prior notice to market participants.
