Potassium Permanganate from the People's Republic of China: Final Results of Expedited Sunset Review of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* August 26, 2010.

SUMMARY: On May 3, 2010, the Department of Commerce ("Department") initiated a sunset review of the antidumping duty order on potassium permanganate from the People's Republic of China ("PRC"). On the basis of a timely notice of intent to participate and an adequate substantive response filed on behalf of a domestic interested party, as well as a lack of response from respondent interested parties, the Department conducted an expedited sunset review. As a result of the sunset review, the Department finds that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping. The dumping margins are identified in the *Final Results of Review* section of this notice.

FOR FURTHER INFORMATION CONTACT: Alexis Polovina, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-3927.

SUPPLEMENTARY INFORMATION:

Background

On May 3, 2010, the Department published the notice of initiation of the sunset review of the antidumping duty order on potassium permanganate from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-Year ("Sunset") Review*, 75 FR 23240 (May 3, 2010). On May 6, 2010, the Department received a notice of intent to participate from a domestic producer, Carus Corporation ("Carus," "domestic interested party," or "Petitioner"). Submission of the notice of intent to participate filed by Petitioner was

within the deadline specified in section 351.218(d)(1)(i) of the Department's regulations. The domestic interested party claimed interested party status under section 771(9)(C) of the Act, as Carus is a domestic manufacturer of potassium permanganate in the United States. On May 28, 2010, the Department received a substantive response from the domestic interested party within the deadline specified in section 351.218(d)(3)(i) of the Department's regulations. We did not receive substantive responses from any respondent interested parties to this proceeding. As a result, pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(C)(2) of the Department's regulations, the Department determined to conduct an expedited review of the order.

Scope of the Order

Imports covered by the order are shipments of potassium permanganate, an inorganic chemical produced in free-flowing, technical, and pharmaceutical grades. Potassium permanganate is currently classifiable under item 2841.61.00 of the Harmonized Tariff Schedule (HTS). The HTS item number is provided for convenience and customs purposes. The written description remains dispositive.

Analysis of Comments Received

All issues raised in this review are addressed in the "Issues and Decision Memorandum" ("Decision Memorandum") from Edward C. Yang, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated August 19, 2010, which is hereby adopted by this notice. The issues discussed in the Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the order were revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in the Central Records Unit in room 1117 of the main Commerce building.

In addition, a complete version of the Decision Memorandum can be accessed directly on the internet at <http://ia.ita.doc.gov/frn>. The paper copy and electronic version of the Decision Memorandum are identical in content.

Final Results of Review

Pursuant to sections 752(c)(1) and (3) of the Act, we determine that revocation of the antidumping duty order on potassium permanganate from the PRC

would be likely to lead to continuation or recurrence of dumping at the following percentage margins:

Manufacturers/producers/exporters	Margin (percent)
PRC-Wide	128.94

This notice also serves as the only reminder to parties subject to administrative protective order (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with section 351.305 of the Department’s regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act.

Dated: August 19, 2010.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.

Fisheries of the Gulf of Mexico and South Atlantic; Southeast Data, Assessment, and Review for Highly Migratory Species Fisheries Sandbar, Dusky, and Blacknose Sharks

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Southeast Data, Assessment, and Review (SEDAR 21) workshops for Highly Migratory Species (HMS) of sandbar, dusky, and blacknose sharks assessment webinar.

SUMMARY: The SEDAR 21 assessments of the HMS stocks of sandbar, dusky, and blacknose sharks will consist of a series of workshops and webinars: a Data Workshop, a series of Assessment webinars, and a Review Workshop (see **SUPPLEMENTARY INFORMATION**).

DATES: The SEDAR 21 Assessment Process I webinars will be held between September 14th and December 8th, 2010. Please see **SUPPLEMENTARY INFORMATION** for exact dates and times. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to the time established by this notice.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information.

FOR FURTHER INFORMATION CONTACT: Julie A Neer, SEDAR Coordinator, 4055 Faber Place, Suite 201, North Charleston, SC 29405; phone (843) 571-4366. Email: Julie.neer@safmc.net

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-

step process including: (1) Data Workshop, (2) Assessment Process utilizing webinars and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO’s; International experts; and staff of Councils, Commissions, and state and Federal agencies.

SEDAR 21 Assessment Process I Webinar Series

Using datasets recommended from the Data Workshop, participants will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.
