SUPPLEMENTARY INFORMATION:

1. Background

On November 3, 2009, the United States and the European Union (EU) agreed to establish a task force to focus “on urgent antimicrobial resistance issues focused on appropriate therapeutic use of antimicrobial drugs in the medical and veterinary communities, prevention of both healthcare- and community-associated drug-resistant infections, and strategies for improving the pipeline of new antimicrobial drugs, which could be better addressed by intensified cooperation.” (2009 EU–U.S. Summit Declaration).

The TATFAR is made up of government representatives from the U.S. Department of Health and Human Services for the United States and from the European Commission, European Union agencies, and representatives of three EU member states for the EU. Information about the TATFAR is available at: <http://ecdc.europa.eu/en/activities/diseaseprogrammes/TATFAR/Pages/index.aspx>.

2. Public Comment and Meeting

The public meeting process provides an opportunity for the public to become aware of the activities of the TATFAR to date. In addition, OGHA invites written comments and/or oral presentations of interested persons on the three focus areas of the TATFAR as defined in the 2009 EU/US Summit Declaration:

- Appropriate therapeutic use of antimicrobial drugs in the medical and veterinary communities,
- Prevention of both healthcare- and community-associated drug-resistant infections, and
- Strategies for improving the pipeline of new antimicrobial drugs.

Comments should identify specific antimicrobial resistance-related activities in these three areas where intensified cooperation between the United States and the European Union could have the most impact, keeping in mind that the work of the TATFAR will be carried out using currently available resources. In particular, input is sought on activities that can be undertaken in the near-term, with a reasonable possibility of completion over the next 12–15 months.

Written comments submitted by e-mail should use the following subject line “TATFAR Comments.” Comments

and any documentation may be submitted as Adobe PDF, MSWord or Text (.txt) files. Written comments submitted by regular mail should clearly identify “TATFAR Comments” as the subject.

3. Building and Security Guidelines

The meeting is being held in a Federal government building; therefore, Federal security measures are applicable. In planning your arrival time, please take account of the need to clear security. All visitors must enter through the NIH Gateway Center and must present government-issued photo identification. All persons entering the building must pass through a metal detector. All items brought to HHS are subject to inspection. For more information on NIH security requirements for visitors, please go to: <http://www.nih.gov/about/visitorssecurity.htm>.

Signed: August 23, 2010.

Director, Office of Global Health Affairs.
