#### SUPPLEMENTARY INFORMATION:

- What is the nature of the VER determination request?
- What legal requirements apply to this request?
- What information is available relevant to the basis for the request?
- How will we process the request?
- How do I submit comments on the request?

#### I. What is the nature of the VER determination request?

On June 7, 2010, the law offices of Napier & Associates, P.S.C., submitted a request on behalf of Jack Smith, Jerry Smith and Leovie Smith, for a determination of VER to conduct surface coal mining operations on approximately 175 acres of land owned by the U.S. Forest Service within the Daniel Boone National Forest in Clay County, Kentucky. Jack Smith, *et al.* is seeking a determination of VER pursuant to the "good faith/all permits" standard in accordance with 30 CFR 761.16(b)(2).

#### II. What legal requirements apply to this request?

Section 522(e)(2) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act), 30 U.S.C. 1272(e)(2), prohibits surface coal mining operations on Federal lands within the boundaries of any national forest, with two exceptions. The first exception pertains to surface operations and impacts incidental to an underground coal mine. The second relates to surface operations on lands within national forests west of the 100th meridian. Neither of those exceptions applies to the request now under consideration.

The introductory paragraph of section 522(e) also provides two general exceptions to the prohibitions on surface coal mining operations in that section. Those exceptions apply to operations in existence on the date of enactment of the Act (August 3, 1977) and to land for which a person has VER. SMCRA does not define VER. We subsequently adopted regulations defining VER and clarifying that, for lands that come under the protection of 30 CFR 761.11 and section 522(e) after the date of enactment of SMCRA, the applicable date is the date that the lands came under protection, not August 3, 1977.

On December 17, 1999 (64 FR 70766-70838), we adopted a revised definition of VER, established a process for submission and review of requests for VER determinations, and otherwise modified the regulations implementing
