SUPPLEMENTARY INFORMATION:

I. Background

The ETA-5130, Benefit Appeals Report, contains information on the number of unemployment insurance appeals and the resultant decisions classified by program, appeals level, cases filed and disposed of (workflow), and decisions by level, appellant, and issue. The data on this report are used by the Department of Labor to monitor the benefit appeals process in the State Workforce Agencies (SWAs) and to develop any needed plans for remedial action. The data are also needed for workload forecasts and to determine administrative funding. If this information were not available, developing problems might not be discovered early enough to allow for timely solutions and avoidance of time consuming and costly corrective action.

II. Review Focus

Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension collection of the ETA-5130 Benefit Appeals Report, which expires November 30, 2010. Comments are requested to:

* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

* Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

* Enhance the quality, utility, and clarity of the information to be collected; and

* Minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.
