

Central Regulatory Area of the GOA is 512 metric tons as established by the final 2010 and 2011 harvest specifications for groundfish in the GOA (75 FR 11749, March 12, 2010). Section 679.83(a)(2) allows trawl or longline gear vessels participating in the entry level rockfish fishery to harvest any unused Pacific ocean perch after 1200 hrs, A.l.t., September 1, 2010.

As of September 1, 2010, 94 mt remains in the combined entry level longline and entry level trawl allocations of Pacific ocean perch. In accordance with § 679.83(a)(3), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the remaining 2010 TAC of Pacific ocean perch allocated to vessels participating in the entry level longline rockfish and entry level trawl fisheries in the Central Regulatory Area of the GOA is insufficient to support directed fishing. Consequently, NMFS is prohibiting directed fishing for Pacific ocean perch for longline and trawl vessels participating in the rockfish entry level fishery in the Central Regulatory Area of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) and § 679.81(h)(5) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of Pacific ocean perch for vessels participating in the rockfish entry level fishery in the Central Regulatory Area of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of August 27, 2010.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Fisheries of the Exclusive Economic Zone Off Alaska; Pelagic Shelf Rockfish for Vessels Participating in the Rockfish Entry Level Fishery in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for pelagic shelf rockfish for vessels participating in the rockfish entry level fishery in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2010 total allowable catch (TAC) of pelagic shelf rockfish allocated to vessels participating in the rockfish entry level fishery in the Central Regulatory Area of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 1, 2010, through 2400 hrs, A.l.t., December 31, 2010.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7269.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The TAC of 2010 pelagic shelf rockfish allocated to vessels participating in the entry level rockfish fishery in the Central Regulatory Area of the GOA is 157 metric tons as established by the final 2010 and 2011 harvest specifications for groundfish in the GOA (75 FR 11749, March 12, 2010).

Section 679.83(a)(2) allows trawl or longline gear vessels participating in the entry level rockfish fishery to harvest any unused pelagic shelf rockfish after 1200 hrs, A.l.t., September 1, 2010.

As of September 1, 2010, 157 mt remains in the combined entry level longline and entry level trawl allocations of pelagic shelf rockfish. In accordance with § 679.83(a)(3), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the remaining 2010 TAC of pelagic shelf rockfish allocated to vessels participating in the entry level longline rockfish and entry level trawl fisheries in the Central Regulatory Area of the GOA is insufficient to support directed fishing. Consequently, NMFS is prohibiting directed fishing for pelagic shelf rockfish for longline and trawl and vessels participating in the rockfish entry level fishery in the Central Regulatory Area of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) and § 679.81(h)(5) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of pelagic shelf rockfish for vessels participating in the rockfish entry level fishery in the Central Regulatory Area of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of August 27, 2010.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.
