Changes to NARA Facilities' Hours of Operation

AGENCY: National Archives and Records Administration.

ACTION: Proposed rule.

SUMMARY: The National Archives and Records Administration (NARA) is proposing to revise its regulations that provide NARA facilities' hours of operation. The proposed regulations will remove NARA facilities' hours of operation from the Code of Federal Regulations (CFR) and establish procedures that NARA offices must follow when changing facilities' hours of operation. The proposed procedures will provide the public with advance notice of any proposed changes in hours and will include justification for the change in writing. DATES: Comments on the proposed rule must be received by November 8, 2010.

SUPPLEMENTARY INFORMATION: NARA facilities' operating hours are currently published in 36 CFR parts 1253, 1254 and 1280. Any proposed changes to facility operating hours are made through revisions to the CFR, which include publishing the proposed changes in the **Federal Register** for public notice and comment. The proposed revisions are open for comment for 60 days and after the comment period closes and resolution of any comments received the proposed changes are made final by publication of the final rule in the **Federal Register**. The hours of operation published in the CFR are also available on <http://www.archives.gov>, NARA's official Web site; by calling a dedicated telephone number for each facility that provides the public with the facilities' operating hours; and posted locally at each facility.

Proposed Revisions to the Current Regulations

NARA is proposing to remove all facilities' hours of operation from our regulations and instead direct individuals to obtain that information from <http://www.archives.gov>, NARA's official Web site; dedicated telephone numbers; and local postings. The removal of the operating hours from the CFR will enable individual facilities to tailor their operating hours to their customers' needs in a more flexible and timely manner. Individuals will continue to be able to obtain hours of operation information at a facility's physical location and via telephone, including out-going voice messaging systems.

Because the authority to change hours will reside with each locality, we are proposing to revise our regulations to incorporate a process for changing hours of operation that will provide the public with advance notice of a change in hours and will include justification for the change in writing. The procedures include posting the proposed changes at the facility in a public area; on <http://www.archives.gov>, NARA's official Web site; and on other online sites on which
