DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

[Docket No. DHS-2010-0067]

Privacy Act of 1974; United States Citizenship and Immigration Services—012 Citizenship and Immigration Data Repository System of Records

AGENCY: Privacy Office, DHS.

ACTION: Notice of Privacy Act system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security proposes to establish a new Department of Homeland Security system of records notice titled, "DHS U.S. Citizenship and Immigration Services 012 Citizenship and Immigration Data Repository System of Records." Citizenship and Immigration Data Repository is a mirror copy of USCIS's major immigrant and non-immigrant benefits databases combined into a single user interface and presented in an updated, searchable format on the classified network. This system takes existing USCIS data and recompiles them into a system for the following three purposes: (1) Vetting USCIS application information for indications of possible immigration fraud and national security concerns, (2) detecting possible fraud and misuse of immigration information or position by USCIS employees, for personal gain or by coercion, and (3) to respond to requests for information (RFIs) from the DHS Office of Intelligence and Analysis (I&A) and/or the Federal intelligence and law enforcement community members that are based on classified criteria. The Department of Homeland Security is issuing a Notice of Proposed

Rulemaking concurrent with this system of records elsewhere in the **Federal Register** because certain information in the system may be classified or relevant to a law enforcement investigation. This newly established system will be included in the Department of Homeland Security's inventory of record systems.

DATES: Submit comments on or before October 8, 2010. This new system will be effective October 8, 2010.

ADDRESSES: You may submit comments, identified by docket number DHS-2010-0067 by one of the following methods:

- *Federal e-Rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Fax:* 703-483-2999.

- *Mail:* Mary Ellen Callahan, Chief Privacy Officer, Privacy Office, Department of Homeland Security, Washington, DC 20528.

- *Instructions:* All submissions received must include the agency name and docket number for this rulemaking. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

- *Docket:* For access to the docket to read background documents or comments received go to <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

I. Background

USCIS collects personally identifiable information (PII) directly from and about immigrants and nonimmigrants through applications and petitions for the purposes of adjudicating and bestowing immigration benefits. USCIS maintains a number of systems to facilitate these purposes including: The Computer Linked Application Information Management System (CLAIMS 3), CLAIMS 4, the Refugees, Asylum, and Parole System (RAPS), Asylum Pre-screen System (APSS), Re-engineered Naturalization Application Casework System (RNACS), Central Index System (CIS) and the Fraud Detection and National Security Data System (FDNS-DS). As part of the adjudication process, USCIS personnel

engage in a number of steps to ensure that an individual is eligible for a requested benefit. One of these steps is the performance of background checks to make certain that an individual is not attempting to obtain the requested benefit by fraudulent means, has not committed a crime involving moral turpitude, and/or does not pose a public safety threat or a threat to national security.

USCIS developed CIDR, hosted on DHS classified networks, in order to make information from these USCIS systems available to authorized USCIS personnel for the purposes of: (1) Vetting USCIS application information for indications of possible immigration fraud and national security concerns, (2) detecting possible fraud and misuse of immigration information or position by USCIS employees, for personal gain or by coercion, and (3) responding to requests for information (RFIs) from the DHS Office of Intelligence and Analysis (I&A) and/or Federal intelligence and law enforcement community members that are based on classified criteria. CIDR enables authorized USCIS users to more efficiently search multiple USCIS systems from a single entry point, the results of which will be retained in CIDR. CIDR's placement on DHS classified networks allows USCIS to securely conduct searches based on classified parameters and searches based on possible fraud and national security concerns.

There are occasions when USCIS receives RFIs from members of the Intelligence Community (IC) and Law Enforcement (LE) that are classified. In order to assist with classified investigatory leads and respond to I&A's requests, USCIS must conduct searches whose parameters are classified on an unclassified data sets. To facilitate a more efficient and secure environment in which to conduct these queries and to store their results, DHS determined that creating mirror copies of its unclassified data sets on the classified side would be the most appropriate solution. CIDR provides the capability to properly conduct and protect classified searches and maintain detailed audit trails of search activities and results. Copying unclassified data from the unclassified systems to a classified site does not render this information classified, only the search parameters and their results. CIDR will enable USCIS personnel to perform searches of its non classified data sets in a classified environment, ensuring that the integrity of the classified RFI process is maintained. Based on the results of the searches performed in CIDR, USCIS will produce a response to

the RFI, which will include the content of the RFI, information from CIDR that is responsive to the RFI, and any necessary explanations to provide proper context and interpretations of the information provided. These responses will contain PII when de-identified or statistical data cannot satisfy the RFI. These responses will be produced by USCIS personnel as separate electronic documents and sent to I&A in the same manner that the RFI was received; usually via e-mail over the classified e-mail network.

USCIS is proposing to exempt classified information in CIDR from disclosure to a requestor to preserve the integrity of ongoing counterterrorism, intelligence, or other homeland security activities, pursuant to the Privacy Act, 5 U.S.C. 552a(k)(1) and (2).

Consistent with DHS's information sharing mission, information stored in CIDR may be shared with other DHS components, as well as appropriate Federal, State, local, Tribal, foreign, or international governmental agencies. This sharing will only take place after DHS determines that the receiving component or agency has a need to know the information to carry out national security, law enforcement, immigration, intelligence, or other functions consistent with the routine uses set forth in this system of records notice.

In accordance with the Privacy Act of 1974 the Department of Homeland Security proposes to establish a new Department of Homeland Security (DHS) system of records notice, titled DHS U.S. Citizenship and Immigration Services 012—Citizenship and Immigration Data Repository (CIDR).

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework, governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined as United States citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals whose systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may

request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency recordkeeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the USCIS 012 CIDR system of records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in this system are stored electronically or on paper in secure facilities in a locked drawer behind a locked door. The records are stored on magnetic disc, tape, digital media, and CD-ROM.

RETRIEVABILITY:

Records may be retrieved by an individual's name, other identifiers, attributes, benefits application and case status data, address, associates, and any other data associated with an individual maintained by USCIS in source systems. Additionally, records may be retrieved by the output of USCIS's search, analysis, and response to classified requests for USCIS data.

SAFEGUARDS:

Records in this system are safeguarded in accordance with applicable rules and policies, including all applicable DHS automated systems security and access policies. Strict controls have been imposed to minimize the risk of compromising the information that is being stored. Access to the computer system containing the

records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RETENTION AND DISPOSAL:

CIDR does not retain the replicated data sets from the underlying USCIS data systems, to include CLAIMS 3, CLAIMS 4, RAPS, APSS, RNACS, and CIS and the associated audit trails of DHS personnel using the systems, as covered by the DHS/ALL-004—General Information Technology Access Account Records System (GITAARS). The data supplied by these systems are retained by those systems in accordance with their own retention schedules. CIDR simply mirrors these data sets. Information will be removed from CIDR after it has been removed in the source system. CIDR retains a record of the classified search request, the results of the request, and a log of these activities for five years. These are maintained for a minimum of five years in accordance with DCID 6/3. Classified data will be maintained for the period of time required by the originating classification authority.

SYSTEM MANAGER AND ADDRESS:

Chief, Technology Coordination
Division Office of Security and Integrity,
USCIS, 111 Massachusetts Avenue,
NW., Washington, DC 20529.

NOTIFICATION PROCEDURE:

DHS is exempting the records from general access provisions, pursuant to 5 U.S.C. 552a(k)(1) and (2). Each request for information within CIDR will be reviewed to determine whether or not the record within CIDR meets the requirements of the exemptions and, as appropriate, to disclose information that does not meet the requirements. This does not prevent the individual from gaining access to his records in the source systems noted below. Persons may seek access to records maintained in the source systems that feed into CIDR, currently CLAIMS 3, and in future releases, CLAIMS 4, RAPS, APSS, RNACS, and CIS.

USCIS treats all requests for amendment of information in a system of records as Privacy Act amendment requests. Any individual seeking to access information maintained in CLAIMS 3, CLAIMS 4, RAPS, APSS, RNACS, and CIS and associated systems should direct his or her request to the USCIS FOIA/Privacy Act (PA) Officer at USCIS FOIA/PA, 70 Kimball Avenue, South Burlington, Vermont 05403-6813 (Human resources and procurement records) or USCIS National Records

Center (NRC), P.O. Box 648010, Lee's Summit, MO 64064-8010 (all other USCIS records). The process for requesting records can be found at 6 CFR 5.21. Requests for records amendments may also be submitted to the service center where the application was originally submitted. The request should clearly state the information that is being contested, the reasons for contesting it, and the proposed amendment to the information. If USCIS intends to use information that is not contained in the application or supporting documentation (e.g., criminal history received from law enforcement), it will provide formal notice to the applicant and provide them an opportunity to refute the information prior to rendering a final decision regarding the application. This provides yet another mechanism for erroneous information to be corrected.

Requests for access to records in this system must be in writing. Such requests may be submitted by mail or in person. If a request for access is made by mail, the envelope and letter must be clearly marked "Privacy Access Request" to ensure proper and expeditious processing. The requester should provide his or her full name, date and place of birth, and verification of identity (full name, current address, and date and place of birth) in accordance with DHS regulations governing Privacy Act requests (found at 6 CFR 5.21), and any other identifying information that may be of assistance in locating the record.

When seeking records from this system of records or any other USCIS system of records, the requestor must conform with the Privacy Act regulations set forth in 6 CFR part 5. You must first verify your identity by providing your full name, current address and date and place of birth. You must sign your request, and your signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty or perjury as a substitute for notarization. While no specific form is required, you may obtain forms for this purpose from the Director, Disclosure and FOIA, <http://www.dhs.gov> or 1-866-431-0486. In addition you should provide the following:

- An explanation of why you believe the Department would have information on you,
- Specify when you believe the records would have been created,
- If your request is seeking records pertaining to another living individual, you must include a statement from that

individual certifying his/her agreement for you to access his/her records.

Without this bulleted information, USCIS will not be able to conduct an effective search, and your request may be denied due to lack of specificity or lack of compliance with applicable regulations.

RECORD ACCESS PROCEDURES:

See "Notification procedure" above.

CONTESTING RECORD PROCEDURES:

See "Notification procedure" above.
