

**SUPPLEMENTARY INFORMATION:****OMB Responses to Agency Clearance Requests***OMB Approvals*

EPA ICR Number 1696.06; Fuels and Fuel Additives: Health-Effects Research Requirements for Manufacturers; 40 CFR part 79, subpart F; was approved on 08/05/2010; OMB Number 2060-0297; expires on 08/31/2013; Approved without change.

EPA ICR Number 2366.02; Stormwater Management Including Discharges From Developed Sites Questionnaires (Revision); was approved on 08/06/2010; OMB Number 2040-0282; expires on 08/31/2013; Approved with change.

EPA ICR Number 2228.03; Reformulated Gasoline Commingling Provisions; 40 CFR 80.78; was approved on 08/13/2010; OMB Number 2060-0587; expires on 08/31/2013; Approved without change.

EPA ICR Number 2322.01; Critical Public Information Needs during Drinking Water Emergencies (New); was approved on 08/16/2010; OMB Number 2080-0079; expires on 08/31/2013; Approved without change.

EPA ICR Number 2243.06; Procedures for Implementing the National Environmental Policy Act (NEPA) and Assessing the Environmental Effects Abroad of EPA Actions (Renewal); 40 CFR 6.301; was approved on 08/18/2010; OMB Number 2020-0033; expires on 08/31/2013; Approved without change.

EPA ICR Number 1058.10; NSPS for Incinerators; 40 CFR part 60, subparts A and E; was approved on 08/20/2010; OMB Number 2060-0040; expires on 08/31/2013; Approved without change.

EPA ICR Number 1975.07; NESHAP for Stationary Reciprocating Internal Combustion Engines; 40 CFR part 63, subparts A and ZZZZ; was approved on 08/23/2010; OMB Number 2060-0548; expires on 08/31/2013; Approved with change.

EPA ICR Number 2173.04; EPA's Green Power Partnership and Combined Heat and Power Partnership (Change); was approved on 08/26/2010; OMB Number 2060-0578; expires on 06/30/2012; Approved with change.

**Comment Filed**

EPA ICR Number 2203.03; Amendments to the Protocol Gas Verification Program, and Minimum Competency Requirements for Air Emission Testing; in 40 CFR parts 72 and 75; OMB filed comment on 08/20/2010.

Dated: September 1, 2010.

**John Moses,**

*Director, Collections Strategies Division.*

[FR Doc. 2010-22326 Filed 9-7-10; 8:45 am]

**Best Management Practices for Unused Pharmaceuticals at Health Care Facilities**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA is requesting public comments on a draft guidance document entitled, *Best Management Practices for Unused Pharmaceuticals at Health Care Facilities*. The guidance is targeted at hospitals, medical clinics, doctors' offices, long-term care facilities and veterinary facilities. EPA expects that this document will help reduce the amount of pharmaceuticals that are discharged to water bodies.

**DATES:** EPA requests comments on or before November 8, 2010. Comments received after this date may not be incorporated into the final guidance document.

**ADDRESSES:** EPA prefers receiving comments by e-mail. Please send e-mail comments to [unusedpharms@epa.gov](mailto:unusedpharms@epa.gov) and include your name and organizational affiliation, if any. You may also send comments by postal mail to Meghan Hessenauer, Engineering and Analysis Division (4303T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

**FOR FURTHER INFORMATION CONTACT:** Meghan Hessenauer, Engineering and Analysis Division, telephone: 202-566-1040; e-mail: [hessenauer.meghan@epa.gov](mailto:hessenauer.meghan@epa.gov).

**SUPPLEMENTARY INFORMATION:** Pharmaceuticals are being discovered in our Nation's waters at very low concentrations. EPA has been studying unused pharmaceutical disposal practices at health care facilities, prompted by the concern that large amounts of pharmaceuticals are being flushed or disposed of down the drain, ultimately ending up in rivers, streams and coastal waters.

The Agency has drafted a guidance document for health care facilities, which describes:

- Techniques for reducing or avoiding pharmaceutical waste;

- Practices for identifying and managing types of unused pharmaceuticals; and

- Applicable disposal regulations.

The guidance is targeted at hospitals, medical clinics, doctors' offices, long-term care facilities and veterinary facilities. EPA expects that this document will help reduce the amount of pharmaceuticals that are discharged to water bodies.

The document is available on EPA's Web site at [http://water.epa.gov/scitech/wastetech/guide/unusedpharms\\_index.cfm](http://water.epa.gov/scitech/wastetech/guide/unusedpharms_index.cfm).

EPA has visited many facilities and consulted with organizations in the health care industry, as well as federal, state and local government agencies. EPA continues to solicit recommendations from a wide range of stakeholders and welcomes comments on the draft document. We plan to publish a final version of the document in late 2010.

Dated: September 1, 2010.

**ICLUS v1.3 User's Manual: ArcGIS Tools and Datasets for Modeling U.S. Housing Density Growth**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) is announcing the availability of a final Geographic Information System (GIS) tool and final user's guide titled, "ICLUS v1.3 User's Manual: ArcGIS Tools and Datasets for Modeling U.S. Housing Density Growth" (EPA/600/R-09/143F). The tool and its documentation were prepared by the National Center for Environmental Assessment (NCEA) within EPA's Office of Research and Development. The GIS tool can be used to modify land use scenarios for the conterminous United States. ICLUS stands for Integrated Climate and Land Use Scenarios, a project which is described in the 2009 EPA Report, "Land-Use Scenarios: National-Scale Housing-Density Scenarios Consistent with Climate Change Storylines." These scenarios are broadly consistent with global-scale, peer-reviewed storylines of population

growth and economic development, which are used by climate change modelers to develop projections of future climate.

**DATES:** The GIS tool and documentation will be available on or about September 8, 2010.

**ADDRESSES:** "ICLUS v1.3 User's Manual: ArcGIS Tools and Datasets for Modeling U.S. Housing Density Growth" and the geoprocessing tools will be available to download via an ftp site on the NCEA's home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. A limited number of paper copies of the User's Manual are available from the Information Management Team, NCEA; telephone: 703-347-8561; facsimile: 703-347-8691. If you are requesting a paper copy, please provide your name, your mailing address, and the final document title, "ICLUS v1.3 User's Manual: ArcGIS Tools and Datasets for Modeling U.S. Housing Density Growth" (EPA/600/R-09/143F).

**FOR FURTHER INFORMATION CONTACT:** For technical information, contact Dr. Britta Bierwagen, NCEA; telephone: 703-347-8613; facsimile: 703-347-8692; or e-mail: [bierwagen.britta@epa.gov](mailto:bierwagen.britta@epa.gov).

#### SUPPLEMENTARY INFORMATION:

#### I. Information About the GIS Tool and Document

The GIS tool and its documentation, "ICLUS v1.3 User's Manual: ArcGIS Tools and Datasets for Modeling U.S. Housing Density Growth" enables users to run a spatially explicit allocation model with the population projections developed for the ICLUS project. Users can modify the spatial allocation of housing density across the landscape to customize scenarios of future development patterns. The data provided consist of five population scenarios by county for the conterminous U.S. and are available in 5-year increments from 2000 to 2100. The population projections for each U.S. county drive the production of new housing units, which are allocated in response to the spatial pattern of previous growth (e.g., 1990 to 2000), transportation infrastructure, and other basic assumptions. The housing allocation model recomputes housing density in 5-year time steps from the year 2000 to 2100.

The GIS tool allows users to:

- Access the county-level ICLUS population projections;
- Customize housing density patterns by altering household size and travel time assumptions;
- Classify housing density into generalized categories;

- Estimate future impervious surface based on a housing density; and
- Summarize levels of imperviousness by housing density classes.

In December 2009, the draft GIS tools and user's guide were released for independent external review and a **Federal Register** notice, published December 8, 2009, announced the start of a public review and comment period. These final GIS tools and user's guide address comments received from both the external peer review and the public.

Dated: September 1, 2010.

#### ENVIRONMENTAL PROTECTION AGENCY

[FRL-9198-3]

#### Science Advisory Board Staff Office; Notification of a Public Teleconference of the Science Advisory Board; Polycyclic Aromatic Hydrocarbon (PAH) Mixtures Review Panel

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The EPA Science Advisory Board (SAB) Staff Office announces a public teleconference of the SAB Polycyclic Aromatic Hydrocarbon (PAH) Mixtures Review Panel to discuss its draft report on EPA's *Development of a Relative Potency Factor (RPF) Approach for Polycyclic Aromatic Hydrocarbon (PAH) Mixtures*.

**DATES:** The SAB PAH Mixtures Review Panel will conduct a public teleconference on September 30, 2010. The teleconference will begin at 1 p.m. and end at 5 p.m. (Eastern Time).

**ADDRESSES:** The teleconference will be conducted by telephone only.

**FOR FURTHER INFORMATION CONTACT:** Any member of the public wishing to obtain general information concerning the public teleconference may contact Mr. Aaron Yeow, Designated Federal Officer (DFO), via telephone at (202) 564-2050 or e-mail at [yeow.aaron@epa.gov](mailto:yeow.aaron@epa.gov). General information concerning the EPA Science Advisory Board can be found on the EPA Web site at <http://www.epa.gov/sab>.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Federal Advisory Committee Act, 5 U.S.C., App. 2 (FACA), notice is hereby given that the SAB PAH Mixtures Review Panel will hold a

public teleconference to discuss its draft report on EPA's *Development of a Relative Potency Factor (RPF) Approach for Polycyclic Aromatic Hydrocarbon (PAH) Mixtures*. The SAB was established pursuant to 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under FACA. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

**Background:** EPA's Integrated Risk Information System (IRIS) is an electronic database containing descriptive and quantitative toxicological information on human health effects that may result from chronic exposure to various substances in the environment. This information supports human health risk assessments and includes hazard identification and dose-response data and derivations of oral reference doses (RfDs) and inhalation reference concentrations (RfCs) for noncancer effects and oral slope factors and oral and inhalation unit risks for cancer effects. IRIS is prepared and maintained by EPA's National Center for Environmental Assessment (NCEA) within the Office of Research and Development (ORD). NCEA's IRIS Program has developed a draft technical document entitled, *Development of a Relative Potency Factor (RPF) Approach for Polycyclic Aromatic Hydrocarbon (PAH) Mixtures*, for estimating cancer risk from exposure to PAH mixtures. ORD has requested that the Science Advisory Board (SAB) conduct a review of this draft document.

The SAB PAH Mixtures Review Panel held a public teleconference on June 8, 2010 and a public meeting on June 21-23, 2010 to review EPA's *Development of a Relative Potency Factor (RPF) Approach for Polycyclic Aromatic Hydrocarbon (PAH) Mixtures* [see **Federal Register** notice dated May 18, 2010 (75 FR 27777-27778)]. Materials from the June 8, 2010 teleconference and June 21-23, 2010 meeting are posted on the SAB Web site at [http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr\\_activites/Human%20Health%20PAH%20Mixtures?OpenDocument](http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Human%20Health%20PAH%20Mixtures?OpenDocument).

The purpose of the upcoming teleconference is for the PAH Mixtures Review Panel to discuss its draft report. The Panel's draft report will be submitted to the chartered SAB for their consideration and approval. A meeting agenda and the draft SAB review report will be posted at the above noted SAB Web site prior to the meeting.

**Availability of Meeting Materials:** Agendas and materials in support of the
