# SUPPLEMENTARY INFORMATION:

#### I. Background

The purpose of this survey is to develop and maintain a timely list of retail, wholesale, and service establishments where urban consumers shop for specified items. This information is used as the sampling universe for selecting establishments at which prices of specific items are collected and monitored for use in calculating the Consumer Price Index (CPI). The survey has been ongoing since 1980 and also provides expenditure data that allows items that are priced in the CPI to be properly weighted.

#### **II. Current Action**

Office of Management and Budget clearance is being sought for the Telephone Point of Purchase Survey (TPOPS).

Since 1997, the survey has been administered quarterly via a computerassisted-telephone-interview. This survey is flexible and creates the possibility of introducing new products into the CPI in a timely manner. The data collected in this survey are necessary for the continuing construction of a current outlet universe from which locations are selected for the price collection needed for calculating the CPI. Furthermore, the TPOPS provides the weights used in selecting the items that are priced at these establishments. This sample design produces an overall CPI market basket that is more reflective of the prices faced and the establishments visited by urban consumers.

For this clearance, the BLS will be implementing a cell phone frame to address a coverage issue associated with landline RDD surveys. The goal of including a cell phone frame is to contact respondents who reside in households with no landline service, but with cellular phone service. The implementation process will begin with a pre-test beginning in the first quarter of 2011 to assess cell phone frame interviewing and to determine the correct amount of sample to pull for each primary sampling unit or geographic area in the CPI. The cell phone frame will be deployed into production in the third quarter of 2011.

#### **III. Desired Focus of Comments**

The Bureau of Labor Statistics is particularly interested in comments that:

• Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

• Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

• Enhance the quality, utility, and clarity of the information to be collected.

• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

*Type of Review:* Revision of a currently approved collection.

Agency: Bureau of Labor Statistics. Title: Point of Purchase Survey. OMB Number: 1220–0044. Affected Public: Individuals or households.

Total Respondents: 24,469. Frequency: Quarterly. Total Responses: 63,375. Average Time per Response: 11 minutes.

*Estimated Total Burden Hours:* 11,619 hours.

Total Burden Cost (Capital/Startup): \$0.

Total Burden Cost (Operating/ Maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 3rd day of September, 2010.
