BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards (ACRS); Meeting of the ACRS Subcommittee on Planning And Procedures

The ACRS Subcommittee on Planning and Procedures will hold a meeting on October 6, 2010, in Room T2B–3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant to 5 U.S.C. 552b(c)(2) and (6) to discuss organizational and personnel matters that relate solely to the internal personnel rules and practices of the ACRS, and information the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows:

Wednesday, October 6, 2010, 12 p.m.–1 p.m.

The Subcommittee will discuss proposed ACRS activities and related matters. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the Full Committee.

Members of the public desiring to provide oral statements and/or written

comments should notify the Designated Federal Official (DFO), Cayetano Santos (Telephone 301–415–7270 or E-mail Cayetano.Santos@nrc.gov) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Thirty-five hard copies of each presentation or handout should be provided to the DFO thirty minutes before the meeting. In addition, one electronic copy of each presentation should be emailed to the DFO one day before the meeting. If an electronic copy cannot be provided within this timeframe, presenters should provide the DFO with a CD containing each presentation at least thirty minutes before the meeting. Electronic recordings will be permitted only during those portions of the meeting that are open to the public. Detailed procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 14, 2009, (74 FR 58268–58269).

Detailed meeting agendas and meeting transcripts are available on the NRC Web site at <http://www.nrc.gov/reading-rm/doc-collections/acrs>. Information regarding topics to be discussed, changes to the agenda, whether the meeting has been canceled or rescheduled, and the time allotted to present oral statements can be obtained from the website cited above or by contacting the identified DFO. Moreover, in view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with these references if such rescheduling would result in a major inconvenience.

Dated: September 1, 2010.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030–20836, License No. 25–21479–01, NRC–2009–0120, A–10–028]

In the Matter of Mark M. Ficek; Order Prohibiting Involvement in NRC-Licensed Activities (Effective Immediately)

Mr. Mark M. Ficek is the President, owner, and former radiation safety officer (RSO) of Mattingly Testing Services, Inc. (Mattingly or Licensee). Mattingly is the holder of Materials License 25–21479–01 issued by the

Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR Part 34, last amended on May 28, 2010, to change the facility's permanent storage location and name a new radiation safety officer, and due to expire on February 28, 2016. The license authorizes Mattingly to possess and use byproduct material for industrial radiography operations in NRC jurisdiction and in areas of exclusive Federal jurisdiction within Agreement States. The license currently authorizes storage at licensee facilities in Molt and Billings, Montana. The license further authorizes the possession of natural or depleted uranium, as solid metal, for shielding in radiography equipment. On the same date this Order (IA–10–028) is issued to Mr. Ficek, the NRC is also issuing Mattingly an Order Revoking License (Effective Immediately) (EA–10–100).

Currently, both Mr. Ficek (IA–08–055) and Mattingly (EA–08–271) are subject to Confirmatory Orders issued on March 6, 2009, which resulted from alternative dispute resolution (ADR) mediation sessions conducted on February 5, 2009. Those Orders were made immediately effective upon issuance. The ADR mediation session and resultant Confirmatory Orders dispositioned nine violations, five of which were willful, identified during an NRC inspection and an investigation by the NRC's Office of Investigations. The 2008 investigation identified several violations: (1) A failure to provide complete and accurate information to the NRC; (2) a radiographer assistant performing radiographic operations without a dosimeter; (3) a radiographer assistant using a radiographic exposure device without supervision of a radiographer; (4) failure to secure a radiographic exposure device with a minimum of two independent physical controls; (5) failure to remove a radiographic exposure device from service after it had sustained damage to the locking mechanism; (6) failure to notify the NRC after discovery of damage to a radiographic exposure device; (7) an individual acting as a radiographer assistant without completing a practical examination on the use of the radiography equipment; (8) failure to ensure that all personnel dosimeters were checked for proper response to radiation every 12 months; and (9) failure to have a functional alarm system to allow the licensee to monitor, detect, assess, and respond to unauthorized access to radioactive material when the radioactive material is not under direct observation by Mattingly staff and stored in a portable
