RIN 0648-ZC21

Extension of Award Period for FY 2007 Coastal and Estuarine Land Conservation Program Grants

AGENCY: National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice.

SUMMARY: The National Oceanic and Atmospheric Administration, National Ocean Service publishes this notice to announce that for those grants issued in fiscal year 2007 that are due to expire on September 30, 2010, NOAA may extend the financial assistance award period for up to six additional months, providing for a potential maximum award duration of three years and six months.

DATES: The provisions in this notice are implemented as of September 15, 2010. Award recipients who wish to avail themselves of the extension to the award period should contact their Program Officer by September 30, 2010 to inform them of their intent to seek an extension.

FOR FURTHER INFORMATION CONTACT: For further information, contact: Elaine Vaudreuil, 301-713-3155 ext. 103, Elaine.Vaudreuil@noaa.gov.

SUPPLEMENTARY INFORMATION: The Coastal and Estuarine Land Conservation Program was established pursuant to Public Law 107-77 for the purpose of protecting important coastal and estuarine areas that have significant conservation, recreation, ecological, historical, or aesthetic values, or that are threatened by conversion from their natural or recreational state to other uses. In accordance with Public Law 107-77, CELCP published in the **Federal Register** on June 17, 2003 (68 FR 35860) program guidelines delineating the criteria for grant awards. The Final Guidelines for the Coastal and Estuarine Land Conservation Program (CELCP) outline a planning process for states to identify the conservation needs and priorities within each state; provide the information necessary for eligible coastal states to develop land conservation plans and nominate projects to a national competitive selection process; and delineate the criteria for grant awards. Consistent with the criteria for grants awards in the

Final Guidelines, the standard financial assistance award period for these awards is 18 months, which can be extended an additional 18 months if circumstances warrant, but may not exceed three years.

Several FY 2007 awards, whose award period is set to expire on September 30, 2010, have experienced circumstances late in the process that precluded their completion within the three-year timeframe provided in the CELCP Guidelines. Although the Final Guidelines indicate that the financial assistance award period may not exceed three years, NOAA is extending the maximum potential award duration for those FY 2007 grants in an open status on September 29, 2010, from three years to three years and six months, ending no later than March 31, 2011, in order to enable projects to be completed and funds expended for their intended purpose.

Award recipients who wish to avail themselves of the extension to the award period should contact their Program Officer by September 30, 2010 to inform them of their intent to seek an extension.

This extension applies to only FY 2007 CELCP awards in an open status on September 29, 2010. This notice does not modify any provision in the Final Guidelines for the Coastal and Estuarine Land Conservation Program published on June 17, 2003.

Classification*Executive Order 12866*

This notice has been determined to be not significant for purposes of Executive Order 12866.

Executive Order 13132 (Federalism)

It has been determined that this notice does not contain policies with Federalism implications as that term is defined in Executive Order 13132.

Administrative Procedure Act/Regulatory Flexibility Act

Prior notice and an opportunity for public comment are not required by the Administrative Procedure Act or any other law for rules concerning public property, loans, grants, benefits, and contracts (5 U.S.C. 553(a)(2)). Because notice and opportunity for comment are not required pursuant to 5 U.S.C. 553 or any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are inapplicable. Therefore, a regulatory flexibility analysis has not been prepared.

Dated: September 10, 2010.

Christopher C. Cartwright,

Associate Assistant Administrator for Management and CFO/CAO, Ocean Services and Coastal Zone Management.

International Trade Administration

Multi-Sector Trade Mission to Nigeria

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

Mission Statement: Multi-Sector Trade Mission to Nigeria, March 8-10, 2011

I. Mission Description

The United States Department of Commerce, International Trade Administration, U.S. Commercial Service is organizing a Trade Mission to Nigeria March 8-10, 2011, to help U.S. firms find business partners and sell equipment and services in Lagos and Abuja, Nigeria. Targeted sectors include, but are not limited to, energy and power generation, health care, information technology, transportation and construction. This mission will be led by a senior official and will include business-to-business matchmaking with local companies, market briefings, and meetings with key government officials.

II. Commercial Setting

In 2009, the Nigerian economy was among the top 20 fastest growing in the world at 6+%, and is one of the two largest economies in Africa. The International Monetary Fund projects Nigeria's economy to continue to grow at 6+% for the next 4 years. With a population of 150 million people, the largest in Africa and 8th largest in the world, Nigeria has a thriving consumer market. Total U.S.-Nigeria trade did fall from \$3.4 trillion to \$2.6 trillion in 2008 and 2009 but is expected to surge in conjunction with Nigeria's growing economy. U.S. exports to Nigeria in 2009 consisted mostly of cereals, vehicles, machinery, fuel and aircraft.

There is significant business potential for U.S. businesses willing to conduct due diligence and draw on Commercial Service assistance in screening prospective partners and customers in Nigeria.

Nigerians prefer U.S. products due to quality, name brand recognition and seek competitive pricing. The business culture relies heavily on the strength of personal contacts to consummate deals. This trade mission offers U.S. company
