

estimated duties on this merchandise. The "All Others" rate for Taiwan applies to all Taiwan producers or exporters not specifically listed and not specifically excluded. The PRC-wide rate applies to all PRC exporters of subject merchandise not specifically listed and not specifically excluded. The Department will also instruct CBP to terminate the suspension of liquidation for entries of narrow woven ribbons from Taiwan and the PRC entered or

withdrawn from warehouse, for consumption prior to September 1, 2010, and refund any cash deposits made and release any bonds posted between the publication of the Department's preliminary determinations on February 18, 2010, and the publication of the ITC's final determination.

**Final Determination Margins**

The margins and cash deposit rates are as follows:

Exporter or producer	Margin (percent)
Taiwan	
Roung Shu Industry Corporation	4.37
All Others .....	4.37

Exporter	Producer	Margin (percent)
PRC		
Beauty Horn Investment Limited .....	Tianjin Sun Ribbon Co., Ltd .....	123.83
Fujian Rongshu Industry Co., Ltd .....	Fujian Rongshu Industry Co., Ltd .....	123.83
Guangzhou Complacent Weaving Co., Ltd .....	Guangzhou Complacent Weaving Co., Ltd .....	123.83
Ningbo MH Industry Co., Ltd .....	Hangzhou City Linghu Jiacheng Silk Ribbon Co., Ltd .....	123.83
Ningbo V.K. Industry & Trading Co., Ltd .....	Ningbo Yinzhou Jinfeng Knitting Factory .....	123.83
Stribbons (Guangzhou) Ltd .....	Stribbons (Guangzhou) Ltd .....	123.83
Stribbons (Guangzhou) Ltd .....	Stribbons (Nanyang) MNC Ltd. ....	123.83
Sun Rich (Asia) Limited .....	Dongguan Yi Sheng Decoration Co., Ltd .....	123.83
Tianjin Sun Ribbon Co., Ltd .....	Tianjin Sun Ribbon Co., Ltd .....	123.83
Weifang Dongfang Ribbon Weaving Co., Ltd .....	Weifang Dongfang Ribbon Weaving Co., Ltd .....	123.83
Weifang Yu Yuan Textile Co., Ltd .....	Weifang Yu Yuan Textile Co., Ltd .....	123.83
Xiamen Yi He Textile Co., Ltd .....	Xiamen Yi He Textile Co., Ltd .....	123.83
Yangzhou Bestpak Gifts & Crafts Co., Ltd .....	Yangzhou Bestpak Gifts & Crafts Co., Ltd .....	123.83
PRC-wide entity <sup>2</sup> .....	.....	247.65

<sup>2</sup> Ningbo Jintian Import & Export Co., Ltd. is included in the PRC-wide entity.

For the PRC separate rate respondents, we will instruct CBP to require an antidumping duty cash deposit for each entry equal to the margin indicated above, adjusted for the export subsidy rate determined in the countervailing duty final determination (i.e., International Market Development Fund Grants for Small and Medium Enterprises). See *Narrow Woven Ribbons With Woven Selvedge From the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 75 FR 41808, 41812 (July 19, 2010). See also *Narrow Woven Ribbons with Woven Selvedge from the People's Republic of China: Final Affirmative Countervailing Duty Determination*, 75 FR 41801 (July 19, 2010), and accompanying Issues and Decision Memorandum at section I.D. The adjusted cash deposit rate for the separate rate respondents (as listed above in the "Final Determination Margins" section, above) is 123.44 percent. These suspension-of-liquidation instructions will remain in effect until further notice.

This notice constitutes the amended antidumping duty orders with respect to narrow woven ribbons from Taiwan and the PRC, pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room 7046 of the main Commerce

Building, for copies of an updated list of antidumping duty orders currently in effect.

These amended orders are issued and published in accordance with section 736(a) of the Act and 19 CFR 351.211(b).

Dated: September 10, 2010.

**Paul Piquado,**  
Acting Deputy Assistant Secretary for Import Administration.

**DEPARTMENT OF COMMERCE**

**Foreign-Trade Zones Board**

[Docket 53-2010]

**Foreign-Trade Zone 104—Savannah, GA Application for Manufacturing Authority Mitsubishi Power Systems Americas, Inc. (Power Generation Turbine Components) Pooler, GA**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Savannah Airport Commission, grantee of FTZ 104, requesting manufacturing authority on behalf of Mitsubishi Power Systems Americas, Inc. (MPSA), located in Pooler, Georgia. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as

amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on September 13, 2010.

The MPSA facility ("Savannah Machinery Works", 119 acres/239,000 sq. ft.) is located at 1000 Pine Meadow Drive within the Pooler Megasite (proposed Site 12 under pending FTZ 104 ASF/Reorganization, Docket 51-2010 [75 FR 53637, 9-1-2010]) in Pooler (Chatham County), Georgia. The facility (approximately 500 employees), currently under construction, will be used to manufacture and repair large gas and steam power generation turbine components (combustor baskets, transition pieces; up to 1,500 units of each per year) for export and the domestic market. Activity would involve receiving foreign-origin, semi-finished nickel alloy sheets, bars, castings and forgings (HTSUS Subheadings 7506.20, 7508.90; duty rate: 3.0%; representing about 36% of total material value) that would be machined, welded, balanced and thermal coated to produce finished gas turbine combustor baskets and transition pieces. Some 70 percent of the finished combustor baskets and transition pieces will be exported. The proposed activity under FTZ procedures would also involve service maintenance and repair (e.g., dis/assembly,

inspection, cleaning, upgrading, welding, and balancing) of customer-owned gas and steam turbine components (rotors, valves, blades, gears, couplings, airfoils, hubs and stationaries) and generators. Foreign-origin turbines and generators would also be distributed from the MPSA facility. The application indicates that large gas and steam turbines will be manufactured at the facility in the future, but MPSA is not seeking authority to produce these products under FTZ procedures at this time.

FTZ procedures could exempt MPSA from customs duty payments on foreign materials and components used in export production. On its domestic shipments, MPSA would be able to choose the duty rate that applies to finished gas turbine combustor baskets and transition pieces (2.4%) for the foreign nickel alloy inputs noted above. MPSA would also be exempt from duty payments on any foreign-origin nickel alloy that becomes scrap or waste during manufacturing. Duties also could possibly be deferred or reduced on foreign status production equipment. Customs duties could be reduced on foreign-origin turbines (6.7%) that may be withdrawn from the zone with generators for customs entry as complete generating sets (2.5%). FTZ procedures would further allow MPSA to realize logistical benefits through the use of weekly customs entry procedures. The application indicates that the savings from FTZ procedures would help improve the facility's international competitiveness.

In accordance with the Board's regulations, Pierre Duy of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the following address: Office of the Executive Secretary, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230-0002. The closing period for receipt of comments is November 16, 2010. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to December 1, 2010.

A copy of the application will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at the address listed above and in the "Reading Room" section of the Board's Web site,

which is accessible via <http://www.trade.gov/ftz>. For further information, contact Pierre Duy at [Pierre.Duy@trade.gov](mailto:Pierre.Duy@trade.gov) or (202) 482-1378.

Dated: September 13, 2010.

**Elizabeth Whiteman,**

*Acting Executive Secretary.*

#### Argonne National Laboratory, et al.; Notice of Decision on Applications for Duty-Free Entry of Scientific Instruments

This is a decision pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Room 3720, U.S. Department of Commerce, 14th and Constitution Ave., NW., Washington, DC.

*Comments:* None received. *Decision:* Approved. We know of no instruments of equivalent scientific value to the foreign instruments described below, for such purposes as this is intended to be used, that was being manufactured in the United States at the time of its order.

*Docket Number:* 10-052. *Applicant:* Argonne National Laboratory, University of Chicago Argonne, Lemont, IL 60439. *Instrument:* Pilatus 2M Pixel Detector System. *Manufacturer:* Dectris Ltd., Switzerland. *Intended Use:* See notice at 75 FR 51239, August 19, 2010. *Reasons:* The instrument will be used to obtain fine structural information for materials during chemical reactions, such as catalysis. The instrument has gatable data processing as well as high time resolution and high spatial resolution, which makes the instrument unique. Other unique features include direct detection of x-rays in single-photon-counting mode, a radiation-tolerant design, a high dynamic range, a short readout time, high frame rates, high counting rates, and shutterless operation.

*Docket Number:* 10-053. *Applicant:* Argonne National Laboratory, University of Chicago Argonne, Lemont, IL 60439. *Instrument:* UHV Low-Temperature Atomic Force Microscope System for Application in High Magnetic Fields. *Manufacturer:* Omicron Nanotechnology, Germany. *Intended Use:* See notice at 75 FR 51239, August 19, 2010. *Reasons:* The instrument will be used to study atomic

scale electrical and magnetic properties of electrically conduction as well as insulation nanostructures prepared by in situ deposition onto clean surfaces. In-situ capacities allow the preparation of clean and well-defined nanostructures on pristine surfaces which would contaminate otherwise. Unique features of this instrument include the capability of applying large magnetic fields (>3 Tesla), which is necessary to allow the clear separation of structural, electronic, and magnetic signals of nanostructures and the evaluation of the properties to be studied in these experiments. The instrument also has in-situ preparation capability and the ability to operate in low temperatures. Further, the instrument is capable of performing imaging in two main modes of operation, *i.e.*, scanning tunneling microscopy and atomic force microscopy.

Dated: September 10, 2010.
