

NATIONAL SCIENCE FOUNDATION**Networking and Information Technology Research and Development (NITRD) Program: Draft NITRD 2010 Strategic Plan—URL Correction**

AGENCY: The National Coordination Office (NCO) for Networking and Information Technology Research and Development (NITRD).

ACTION: Notice, request for public comment.

FOR FURTHER INFORMATION CONTACT: The National Coordination Office (NCO) at nitrd-sp@nitrd.gov or (703) 292-4873. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

DATES: Comments must be received by 5 p.m. EDT on October 11, 2010.

SUMMARY: With this notice, the National Coordination Office for Networking and Information Technology Research and Development (NITRD) requests comments from the public regarding the draft 2010 Strategic Plan for the Federal NITRD Program. The draft Strategic Plan is posted at: <http://www.nitrd.gov/DraftStrategicPlan/>. Comments of one page or less in length are requested. This request for information will be active from September 10, 2010 to October 11, 2010.

ADDRESSES: Submit comments via e-mail to: nitrd-sp@nitrd.gov. Comments submitted in response to this notice may be made available to the public online or by alternative means. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information.

SUPPLEMENTARY INFORMATION:

Overview: This notice is issued by the National Coordination Office for the Networking and Information Technology Research and Development (NITRD) Program. The draft NITRD Strategic Plan reflects broad input from Federal agencies as well as from researchers and other stakeholders in academia, industry, national laboratories, and professional/technical organizations. Public inputs were solicited in a detailed August 2008 Request for Information (RFI) and in a February 2009 public forum and Webcast. Several hundred comments were received in response to the RFI, and many of these were posted to the NITRD Web site for further comment. The public forum, which included

formal presentations by academic and industry experts addressing key concepts for the draft Strategic Plan, was attended by some 100 members of the public, while another 400 persons participated via the Webcast.

Background: As required by the High-Performance Computing Act of 1991 (Pub. L. 102-194), the Next Generation Internet Research Act of 1998 (Pub. L. 105-305), and the America COMPETES Act of 2007 (Pub. L. 110-69), NITRD currently provides a framework and mechanisms for coordination among 14 Federal agencies that support advanced IT R&D. These agencies report IT research budgets in the NITRD crosscut, and many other agencies with IT interests also participate informally in NITRD activities. The draft 2010 Strategic Plan for the NITRD Program was developed by the NITRD agencies pursuant to a recommendation of the President's Council of Advisors on Science and Technology (PCAST).

Invitation to comment: Inputs of one page or less are welcomed in response to this third and final request for public comment on the Plan. E-mail to: nitrd-sp@nitrd.gov.

Submitted by the National Science Foundation for the National Coordination Office (NCO) for Networking and Information Technology Research and Development (NITRD) on September 1, 2010.

September 13, 2010.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0297]

Biweekly Notice Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations**I. Background**

Pursuant to section 189a. (2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (the Commission or NRC) is publishing this regular biweekly notice. The Act requires the Commission publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that

such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from August 26, 2010, to September 8, 2010. The last biweekly notice was published on September 7, 2010 (75 FR 54390-54400).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license amendment before expiration of the 60-day period provided that its final determination is that the amendment involves no significant hazards consideration. In addition, the Commission may issue the amendment prior to the expiration of the 30-day comment period should circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example in derating or shutdown of the facility. Should the Commission take action prior to the expiration of either the comment period or the notice period, it will publish in the **Federal Register** a notice of issuance. Should the Commission make a final No Significant Hazards Consideration Determination, any hearing will take place after issuance. The Commission expects that
