Data obtained are used to evaluate and monitor the implementation of IDEA and for performance reporting. OSEP revisions have: (a) Modified items that collect information on scholars' knowledge and skills to reduce grantee work burden and to diminish response ambiguity, to simplify data entry and analysis, and to delete two items that were no longer needed; (b) added one item to determine whether the grantee expects the scholar to complete the program; (c) added two items to first section to determine if scholar received funding under a previous grant and the number of credit hours earned prior to starting the current grant program and that will be accepted for program completion; and (d) enhanced instructions for a few items to make the form more user-friendly and diminish response ambiguity.
