DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2010-N-0465]

Agency Information Collection Activities; Proposed Collection; Comment Request; Experimental Study: Effect of Promotional Offers in Direct-to-Consumer Prescription Drug Print Advertisements on Consumer Product Perceptions

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information and to allow 60 days for public comment in response to the notice. This notice solicits comments on the Experimental Study: Effect of Promotional Offers in Direct-to-Consumer Prescription Drug Print Advertisements on Consumer Product Perceptions. This study is designed to investigate the impact of the presence of coupons offering purchase incentives such as free-trial offers, discounts, and money-back guarantees on consumers' perceptions of product risks and benefits in direct-to-consumer (DTC) print ads.¹ Notice of proposed information collection for this project was previously published in the **Federal Register** of December 15, 2008 (73 FR 76034). This notice is being republished due to significant revisions in the burden and study design.

DATES: Submit either electronic or written comments on the collection of information by November 22, 2010.

ADDRESSES: Submit electronic comments on the collection of information to <http://www.regulations.gov>. Submit written comments on the collection of information to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852. All comments should be identified with the docket number found in brackets in the heading of this document.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the

¹ While the Federal Food, Drug and Cosmetic Act (the FD&C Act) provides FDA with authority to regulate prescription drug advertisements that are false or misleading, the FD&C Act does not provide FDA with the authority to regulate the pricing of prescription drugs. Thus, FDA is merely interested in studying the effects, if any, of the presence of various promotional offers in DTC advertisements on consumers' perceptions of product risks and benefits, and recognizes that it does not actually regulate the dollar or other incentive amount of coupons, price incentives, or rebate offers with respect to how they affect the price of prescription drugs or biological products.
