

Information will also be collected from a comparison group of 700 respondents who will complete pre- and post-intervention questionnaires, but will not participate in the discussion groups or review the briefing materials.

The goal is to identify key issues for community obesity prevention programs, to refine promising obesity prevention practices for targeted communities, and to facilitate the dissemination of promising practices for

obesity prevention. OMB approval is requested for one year. There are no costs to respondents other than their time. The total estimated annualized burden hours are 2,034.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Evaluation of Safe Dates Project—(OMB No. 0920-0783 exp. 6/30/2011)—Revision—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Safe Dates, a dating violence prevention curriculum for 8th and 9th grade students, has been shown to be effective at preventing victimization and perpetration of teen dating violence in one rural North Carolina school district, but appropriateness of the program with urban, high-risk adolescents is unknown. CDC has learned additional information about violence and risk factors for adolescents in urban, high-risk communities since the original OMB clearance package was submitted. Recent research also has shown that adolescents who live in urban, disadvantaged communities report significantly higher prevalence of some risky behaviors, including violence, than nationally representative U.S. adolescents (Swahn & Bossarte, 2009). To assess whether Safe Dates should be modified for urban, high-risk adolescents, CDC requests OMB approval to conduct focus groups with

students and interviews with teachers at urban schools in the 2010-2011 school year. Data collection staff will use new interview guides designed for this purpose. The data collection will require participation from teachers at eight schools who delivered the Safe Dates program and students at one school who received the program. Qualitative data will be collected through student focus groups and teacher interviews. Students will complete a participant profile form to capture basic demographic information. Approximately 40 students at one school will participate in focus groups. Two focus groups will consist of 8-10 boys, and two focus groups will include 8-10 girls. Informed written consent from parents for each student's participation and informed written assent from tenth graders for their own participation will be obtained. Twenty teachers will participate in interviews. Students and teachers will be asked about their experiences with the Safe Dates program and ideas they may have about adapting the program for urban schools.

There is no cost to respondents other than their time. The total estimated annual burden hours are 14,193.

Submission for OMB Review; Comment Request

Title: Division of Unaccompanied Children's Services (DUCS) Request for Specific Consent.

OMB No.: New Collection.

Description: The William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (TVPRA of

2008), Public Law 110-457 was enacted into law December 23, 2008. Section 235(d) directs the Secretary of HHS to grant or deny requests for specific consent for unaccompanied alien children in HHS custody who seek to invoke the jurisdiction of a state court for a dependency order and who also seek to invoke the jurisdiction of a state court to determine or alter his or her custody status or release from ORR. These requests can be extremely time sensitive since a child must ask a state court for dependency before turning 18 years old.

In developing procedures for collecting the necessary information from unaccompanied alien children, their attorneys, or other representatives to allow HHS to approve or deny consent requests, ORR/DUCS devised a form. Specifically, the form asks the requestor for his/her identifying

information, basic identifying information on the unaccompanied alien child, the name of the HHS-funded facility where the child is in HHS custody and care, the name of the court and its location, and the kind of request (e.g., for a change in custody, etc.). The form also asks that the unaccompanied alien child's attorney or authorized representative attach a Notice of Representation, which is an approved federal government agency form used for immigration procedures that authorizes the attorney to act on behalf of the child (i.e., G-28, EOIR-28, EOIR-29), or any other form of authorization to act on behalf of the unaccompanied alien child.

Respondents: Attorneys, accredited legal representatives, or others authorized to act on behalf of a unaccompanied alien child.
