

4. *Wildlife habitat management*—What will the management direction be for wildlife species, including big game species? How will wildlife corridors and secure habitat areas be managed? What management direction applies to the management of streams and lakes for native fish and aquatic life?

5. *Minerals*—What areas of the Shoshone are suitable for mineral, oil, and gas development?

6. *Commercial livestock grazing*—What areas of the Shoshone are suitable for livestock grazing?

#### Public Involvement

Extensive public involvement and collaboration on revising the 1986 Shoshone National Forest Land and Resource Management Plan have occurred over the last five years. Discussions with the public regarding needed changes to the 1986 forest plan began with a series of public meetings in 2005. This input, along with science-based evaluations, were used to determine a need for change and a proposed plan. Correspondence, news releases, comment periods, and other tools were used to gather feedback from the public, Shoshone National Forest employees, tribal governments, federal and state agencies, and local governments.

We desire to continue collaborative efforts with members of the public who are interested in management of the Shoshone, as well as federal and state agencies, local governments, and private organizations. If you feel we missed any substantive issues or concerns from those listed above as revision topics or as identified in the Need for Change document, or additional, different comments from those previously provided on the draft proposed plan, please contact us.

If you do wish to comment, it is important that you provide comments at such times and in such a way (clearly articulate your concerns) that they are useful to the Agency's preparation of the revised plan and the EIS. Therefore, comments on the proposed action and need for change will be most valuable if received by November 19, 2010. The submission of timely and specific comments can affect a reviewer's ability to participate in subsequent administrative or judicial review. At this time, we anticipate using the 2000 planning rule pre-decisional objection process (36 CFR 219.32) for administrative review.

Comments received in response to this solicitation, including the names and addresses of those who comment, will be part of the public record.

Comments submitted anonymously will be accepted and considered.
