

Passenger Rail Program. The Answers to Frequently Asked Questions can be found on FRA's Web site at <http://www.fra.dot.gov/Pages/11.shtml>.

DATES: Written comments on FRA's Buy America Answers to Frequently Asked Questions may be provided to the FRA on or before October 18, 2010.

ADDRESSES: Please submit your comments by one of the following means, identifying your submissions by docket number FRA-2010-0147. All electronic submissions must be made to the U.S. Government electronic site at <http://www.regulations.gov>. Commenters should follow the instructions below for mailed and hand-delivered comments.

(1) *Web Site:* <http://www.regulations.gov>. Follow the instructions for submitting comments on the U.S. Government electronic docket site;

(2) *Fax:* (202) 493-2251;

(3) *Mail:* U.S. Department of Transportation, 1200 New Jersey Avenue, SE., Docket Operations, M-30, Room W12-140, Washington, DC, 20590-0001; or

(4) *Hand Delivery:* Room W12-140 on the first floor of the West Building, 1200 New Jersey Avenue, SE., Washington, DC, 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Instructions: All submissions must make reference to the "Federal Railroad Administration" and include docket number FRA-2010-0147. Due to security procedures in effect since October 2001, mail received through the U.S. Postal Service may be subject to delays. Parties making submissions responsive to this notice should consider using an express mail firm to ensure the prompt filing of any submissions not filed electronically or by hand. Note that all submissions received, including any personal information therein, will be posted without change or alteration to <http://www.regulations.gov>. For more information, you may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477), or visit <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: For questions about this notice, please contact Ms. Linda Martin, Attorney-Advisor, FRA Office of Chief Counsel, (202) 493-6062 or via e-mail at Linda.Martin@dot.gov.

SUPPLEMENTARY INFORMATION: The Passenger Rail Investment and Improvement Act of 2008 (PRIIA) (Division B of Pub. L. 111-432)

authorized the appropriation of funds to establish several new passenger rail grant programs, including capital investment grants to support intercity passenger rail service (§ 301), high-speed corridor development (§ 501), and congestion grants (§ 302). FRA consolidated these and other closely related programs into the High-Speed Intercity Passenger Rail (HSIPR) program, as detailed in FRA's High-Speed Intercity Passenger Rail (HSIPR) Interim Guidance (74 FR 29900 (June 23, 2009)) and as further detailed in a second set of HSIPR interim program guidance governing the distribution of fiscal year 2010 funding (75 FR 38344 and 38365 (July 1, 2010)). Spending authorized under PRIIA is subject to the Buy America provision of 49 U.S.C. 24405(a).

In 2009, President Obama, together with Vice President Biden and Secretary of Transportation LaHood, articulated a new "Vision for High-Speed Rail in America" (available on FRA's Web site). The HSIPR program is a component of that vision, as is the American Recovery and Reinvestment Act of 2009 (ARRA), which appropriated funds for PRIIA-authorized grant programs. The vision includes a goal to bolster American passenger rail expertise and resources. The Buy America requirements reinforce this goal, and aid in encouraging a domestic market in the rail sector. PRIIA authorized FRA to operate the grant programs under guidance, prior to the issuance of final regulations. FRA is beginning the process of implementing regulations to govern the application of the Buy America statute to all PRIIA-authorized spending as part of the HSIPR program. As required, the proposed regulation will be published in the **Federal Register** for public comment under RIN 2130-AC23 and docket number FRA-2010-0147. In the interim, to aid grantees who must immediately apply Section 24405(a) to funds granted them by FRA, FRA is providing Answers to Frequently Asked Questions describing its procedures for applying the Buy America provision in the HSIPR program on its Web site at <http://www.fra.dot.gov/Pages/11.shtml>.

Issued in Washington, DC, on *September 22, 2010*.

Mark E. Yachmetz,

Associate Administrator for Railroad Policy and Development, Federal Railroad Administration.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

Early Scoping for the Alternatives Analysis of the North Corridor Transit Project in Metropolitan Seattle

AGENCY: Federal Transit Administration, DOT.

ACTION: Early Scoping Notice.

SUMMARY: The Federal Transit Administration (FTA) and the Central Puget Sound Regional Transit Authority (Sound Transit) issue this early scoping notice to advise other agencies and the public that they intend to explore alternatives for improving transit service between Northgate in Seattle and Lynnwood, in King and Snohomish counties, Washington. The early scoping is being conducted within the context of the Council on Environmental Quality's regulations for complying with the National Environmental Policy Act (NEPA) and is part of a planning Alternatives Analysis (AA) required by Title 49 United States Code (U.S.C.) 5309 to analyze the potential for a fixed guideway alternative to be implemented as an FTA-assisted major capital transit investment. The AA process results in the selection or confirmation of a locally preferred alternative which is the proposed action. The early scoping notice is intended to invite public comments on the scope of the AA study, including the transportation problems to be addressed, a range of alternatives, the transportation and community impacts and benefits to be considered, the capital and operating costs, the financial plans and other factors that the public and agencies believe should be considered in analyzing alternatives. If preparation of an environmental impact statement (EIS) is warranted following completion of the planning AA, a notice of intent to prepare an EIS will be published. This early scoping process is intended to support the future NEPA scoping process. Public meetings and the range of alternatives currently identified to address the project's purpose are described below.

DATES: Three public scoping meetings and one agency scoping meeting to accept comments will be held on the following dates and locations:

Public Meetings

North Seattle: October 7, 2010. Ingraham High School, 1819 N. 135th St., Seattle, 98133.

Lynnwood: October 12, 2010. Lynnwood Convention Center, 3711 196th St., SW., Lynnwood, 98036.

Shoreline: October 14, 2010.
Shoreline Conference Center, 18560 1st Ave., NE., Shoreline, 98155.

All public meetings will be from 6 to 8:30 p.m.

Agency Meeting

Seattle: October 13, 2010, 1 p.m. to 3 p.m. Sound Transit offices, 401 S. Jackson St., Seattle, 98104.

Invitations to the interagency scoping meeting will be sent to appropriate Federal, state, local, and tribal governmental units.

In addition to the supplemental information provided below, information on the AA will be provided at the public meetings, which will also provide opportunities for spoken or written comments. Information is also available on Sound Transit's Web site at: <http://www.soundtransit.org/NorthHCT>. Written scoping comments are requested by October 25, 2010 and can be sent or e-mailed to the address below, submitted at the public meetings, or provided via the online comment form available at <http://www.soundtransit.org/NorthHCT>.

ADDRESSES: Roger Iwata, North Corridor Project, Sound Transit, 401 S. Jackson Street, Seattle, WA 98104-2826, or by e-mail to roger.iwata@soundtransit.org.

FOR FURTHER INFORMATION CONTACT: John Witmer, Community Planner, Jackson Federal Building, 915 Second Avenue, Suite 3142, Seattle, WA 98174; *Phone:* (206) 220-7954; *e-mail:* John.Witmer@dot.gov.

SUPPLEMENTARY INFORMATION:

Early Scoping

As defined by law, alternatives analysis (AA) is the first step of the New Starts project development process. AA is the local forum for evaluating the costs, benefits, and impacts of a range of transportation alternatives designed to address mobility problems and other locally-identified objectives in a defined transportation corridor, and for determining which particular investment strategy should be advanced for more focused study and development. For AA studies which may result in the local selection of a project eligible for FTA New Starts or Small Starts funding, the AA further serves as the process for development of the technical information necessary to support a candidate project's entry into New Starts preliminary engineering. Early scoping for the North Corridor project is being conducted in support of NEPA requirements and in accordance with the Council on Environmental Quality's regulations and guidance for implementing NEPA. See 40 CFR 1501.2

through 8, which encourage federal agencies to initiate NEPA early in their planning processes. Early scoping allows the scoping process to begin as soon as there is enough information to describe the proposal so that the public and relevant agencies can participate effectively. This is particularly useful in situations when a proposed action involves a broadly defined corridor with an array of modal and alignment alternatives under consideration.

This early scoping notice is intended to generate public comments on the scope of the planning AA, including the purpose and need for the project, a range of alternatives, the financial plans, and the environmental, transportation and community impacts and benefits to be considered.

The North Corridor and the Regional Transit System

The North Corridor is approximately eight to nine miles long depending on routing. Starting at Northgate in north Seattle and ending in Lynnwood, the corridor generally follows Interstate 5 (I-5), which is the major north-south route through Washington State and serves a large commuter market traveling between Snohomish and King Counties and the City of Seattle. The corridor is within a geographically constrained urban area that lies between the Puget Sound to the west and Lake Washington to the east, which limits transportation options. This is one of the densest urban areas in the Pacific Northwest and comprises one of the region's most productive markets for transit.

Sound Move, the first phase of regional transit investments, was approved and funded by voters in 1996. Sound Transit is now completing the development of *Sound Move*, which includes light rail, commuter rail and regional express bus infrastructure and service, including the Central Link light rail system between Northgate, the University of Washington, downtown Seattle, Tukwila and SeaTac. In 2009, Sound Transit began light rail operations between downtown Seattle and SeaTac. Link light rail north from downtown Seattle to Capitol Hill and the University of Washington is now under construction and is scheduled to open in 2016. The final section of Central Link light rail from the University of Washington to Northgate is about to enter final design with operation to begin in 2020.

In 2004, Sound Transit initiated planning for the second phase of investment to follow *Sound Move*. This work included updating Sound Transit's Long-Range Plan and associated

environmental review. Following several years of system planning work to detail, evaluate, and prioritize the next round of regional transit system expansion, voters in 2008 authorized funding for the extension of the regional light rail system in the North Corridor as part of the Sound Transit 2 (ST2) Plan. The ST2 Plan also includes an East Link light rail line from downtown Seattle to Bellevue and Redmond to the east, and from SeaTac to Federal Way to the south.

Transportation Purpose of the North Corridor Project

The purpose of the project is to improve transit service from Seattle north into Snohomish County by:

(1) Providing reliable, rapid, and efficient two-way, all-day transit service of sufficient capacity to meet the existing and projected demand between the communities and activity centers located in the North Corridor and the other urban centers in the central Puget Sound area by providing a mobility alternative to travel on congested roadways and improved connections to the regional multimodal transportation system;

(2) Supporting North Corridor communities' and the region's land use, transportation and economic development vision, which promotes the well-being of people and communities, ensures economic vitality and preserves a healthy environment; and

(3) Supporting the long-range vision, goals, and objectives for transit service established by Sound Transit's Long-Range Plan for high quality regional transit service connecting major activity centers in King, Pierce and Snohomish counties.

The project is needed to:

- Meet the rapidly growing transportation needs of the corridor and the region's future residents and workers by increasing mobility, access, and transportation capacity to and from regional growth and activity centers in the North Corridor and the rest of the region, as called for in the region's adopted plans, including the Puget Sound Regional Council's VISION 2040 and *Transportation 2040*, as well as related county and city comprehensive plans.

- Address the problems of increasing and unreliable travel times for transit users in the North Corridor, who are now dependent on the corridor's highly congested roadway and high occupancy vehicle systems.

- Address overcrowding facing current and future North Corridor transit riders due to insufficient

capacity of the infrastructure that supports the current transit system.

- Provide an alternative to automobile trips on I-5 and SR 99, the two primary highways serving the corridor, which are unreliable and over capacity throughout significant portions of the day.

- Implement the long-range vision for regional transit service established by Sound Transit's Long Range Plan, with a transit investment that supports economic vitality, preserves the environment, preserves communities, and allows for the further extension of regional transit north to Everett.

- Ensure long-term regional mobility, multimodal connectivity, and convenience for North Corridor citizens and communities, including travel-disadvantaged residents and low income and minority populations.

- Provide the transit infrastructure needed to support the development of Northgate and Lynnwood as designated regional growth centers providing housing, employment, public services, and multimodal transportation connections.

- Help support the environmental and sustainability goals of the state and region, including state regulations setting goals for reducing annual per capita vehicle miles traveled by 2050, in accordance with RCW 47.01.440, and the reduction of greenhouse gas emissions (Limiting Green House Gas Emissions, RCW Chapter 702.35).

Alternatives

In developing the ST2 Plan, Sound Transit defined a light rail alignment that helped establish the ridership potential and costs for the transit improvements in the North Corridor. The alignment was assumed to be entirely elevated primarily along I-5. The project elements included a light rail guideway, track, and systems extending approximately 8.5 miles north from Northgate Station to Lynnwood Transit Center. After leaving Northgate Station, the alignment followed the east side of I-5 to about 48th Avenue W. in Snohomish County and then crossed to the west side of I-5 to enter Lynnwood Transit Center. Four new stations were anticipated at NE. 145th Street, NE. 185th Street, SW., 236th Street, and the Lynnwood Transit Center (terminal station), all sized to accommodate 4-car trains. Park-and-ride structures of 500 stalls each would be provided at NE 145th Street, NE., 185th Street, and Lynnwood Transit Center.

As part of the AA and in accordance with FTA guidance for New Start projects, Sound Transit will explore alternative mode, alignment, station,

and design configurations for improved transit in the North Corridor. All alternatives will be compared to a "No-Build" alternative, which represents the future transportation system through the year 2030 without North Corridor transit improvements, and a Transportation Systems Management (TSM) alternative, which will examine methods for improving transit in the North Corridor without a new fixed guideway. Potential elements of a TSM alternative could include more frequent bus service, new or expanded park-and-ride capacity, or freeway or arterial transit priority improvements.

Sound Transit is inviting comments on the alternative transit modes, alignments, station locations, and design configurations to be studied, as well as comment on proposed evaluation measures to be used to compare alternatives. Routes that may be considered follow portions of State Route 99, the Interurban Trail, Interstate 5 and 15th Avenue NE. The definition of these alternatives will reflect a range of high and low cost capital improvements, including non-guideway options which can serve as a "baseline" for measuring the merits of higher level investments. Measures for evaluating the relative merits of alternatives will be identified, as will technical methodologies for generating the information used to support such measures; these will typically include disciplines such as travel forecasting, capital and operations and maintenance costing, and environmental and land use analyses. Finally, costs, benefits, and impacts of each alternative are developed and evaluated, funding strategies are analyzed, and a locally preferred alternative (LPA) is affirmed to be advanced for further development.

At the conclusion of the AA process, Sound Transit and the FTA anticipate narrowing the range of alternatives for further evaluation in a draft environmental impact statement (EIS), if warranted, potentially including identification of a locally preferred alternative. If the resulting range of alternatives involves the potential for significant environmental impacts requiring an EIS, a Notice of Intent to prepare an EIS will be published in the **Federal Register**, and public and agency comment on the scope of the EIS will be invited and considered at that time.

Issued on: September 17, 2010.

Linda Gehrke,

Deputy Regional Administrator.

BILLING CODE P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Final Federal Agency Actions on Proposed Highway in North Carolina

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA and Other Federal Agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(I)(1). The actions relate to a proposed highway project, the Monroe Connector/Bypass, from US 74 near I-485 in Mecklenburg County, North Carolina, to US 74 between the towns of Wingate and Marshville in Union County, North Carolina. The Monroe Connector/Bypass is also known as State Transportation Improvement Program Project R-3329/R-2559. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(I)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before March 28, 2011. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Mr. George Hoops, P.E., Major Projects Engineer, Federal Highway Administration, 310 New Bern Avenue, Suite 410, Raleigh, North Carolina 27601-1418, *Telephone:* (919) 747-7022; *e-mail:* george.hoops@dot.gov. FHWA North Carolina Division Office's normal business hours are 8 a.m. to 5 p.m. (Eastern Time). Ms. Jennifer Harris, P.E., Director of Planning and Environmental Studies, North Carolina Turnpike Authority (NCTA), 5400 Glenwood Avenue, Suite 400, Raleigh, North Carolina 27612, *Telephone:* (919) 571-3000; *e-mail:* jennifer.harris@ncturnpike.org. NCTA's normal business hours are 8 a.m. to 5 p.m. (Eastern Time).

SUPPLEMENTARY INFORMATION: Notice is hereby given that FHWA and other Federal agencies have taken final agency actions by issuing a Record of Decision (ROD) for the following highway project in the State of North Carolina: The Monroe Connector/Bypass, a 20-mile long, multi-lane, fully access-controlled, new location toll road. The project is
