[Docket No. CP10-504-000]

D'Lo Gas Storage, LLC; Notice of Petition

September 24, 2010.

Take notice that on September 21, 2010, D'Lo Gas Storage, LLC (Petitioner), 1002 East St. Mary Boulevard, Lafayette, Louisiana 70503, filed in Docket No. CP10-504-000, a petition for an Exemption of Temporary Acts and Operations and Request for Expedited Approval, pursuant to Rule 207(a)(5) of the Commission's Rules of Practice and Procedure, 18 CFR 385.207(a)(5) and section 7(c)(1)(B) of the Natural Gas Act, to perform specific temporary activities related to drill site preparation and drilling of three test wells in Simpson County, MS. Specifically, Petitioner proposes to drill two stratigraphic test wells: one to determine salt characteristics and the other to determine the viability of the salt water disposal, and one water test well, all designed to determine feasibility of developing the underlying salt dome formation for natural gas storage, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to J. Gordon Pennington, 2707 N. Kensington St., Arlington, VA 22207, telephone no. (703) 533-7638, facsimile no. (703) 241-1842, and e-mail: pennington5@verizon.net and Theo B. Bean, Jr., D'Lo Gas Storage, LLC, 1002 East St. Mary Blvd., Lafayette, LA 70503, telephone no. (337) 234-4122, facsimile no. (337) 234-2330, and e-mail: thean@beanresources.com.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other

milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's

environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Standard Time, Friday October 8, 2010.

Kimberly D. Bose,
Secretary.

Mandatory Reliability Standards for the Bulk Power System; Notice Allowing Post-Technical Conference Comments

September 24, 2010.

On September 23, 2010, the Federal Energy Regulatory Commission conducted a Technical Conference on Frequency Response in the Wholesale Electric Grid. The purpose of the technical conference was to provide an opportunity for a public discussion regarding technical issues pertaining to the development of a frequency response requirement. All interested persons are invited to file written comments on or before October 14, 2010, that relate to the issues discussed

during the technical conference. Commenters are encouraged to use the questions presented in the agenda for the conference to organize their comments.

Kimberly D. Bose,
Secretary.

Western Passage OCGen™ Power Project; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

September 24, 2010.

On July 1, 2010, ORPC Maine, LLC (ORPC Maine) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Western Passage OCGen™ Power Project, located in Western Passage, in the vicinity of the City of Eastport, Washington County, Maine. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) 2 OCGen™ hydrokinetic tidal devices each consisting of four 150-kilowatt turbine generator units for a combined capacity of 1,200 kilowatts; (2) an anchoring support structure; (3) a mooring system; (4) a 1,500-foot-long submersible cable connecting the turbine-generating units of each device to a shore station; (5) a 2,800-foot-long, 34.5-kilovolt transmission line connecting the shore station to an existing distribution line; and (6) appurtenant facilities. The estimated annual generation of the Western Passage OCGen™ Power Project would be 3.12 to 3.96 gigawatt-hours.

Applicant Contact: Christopher R. Sauer, President and CEO, Ocean Renewable Power Company, LLC, 120 Exchange Street, Suite 508, Portland, Maine 04101; phone: (207) 772-7707.

FERC Contact: Michael Watts, 202-502-6123.

Deadline for filing comments, motions to intervene, competing applications

(without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov/docs-filing/ferconline.asp>) under the "eFiling" link. For a simpler method of submitting text only comments, click on "eComment." For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov; call toll-free at (866) 208-3676; or, for TTY, contact (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and eight copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-12680) in the docket number field to access the document. For assistance, contact FERC Online Support.

Kimberly D. Bose,
Secretary.

Kendall Head Tidal Energy Project; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

September 24, 2010.

On June 29, 2010, ORPC Maine, LLC (ORPC Maine) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Kendall Head Tidal Energy Project, located in the Western Passage in the Atlantic Ocean in Washington County, Maine. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize

the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) 4 OCGen™ hydrokinetic tidal devices each consisting of two 150-kilowatt turbine generator units for a combined capacity of 1,200 kilowatts; (2) an anchoring support structure; (3) a mooring system; (4) a 2,700-foot-long submersible cable connecting the turbine-generating units to a shore station; (5) a 8,500-foot-long, 34.5-kilovolt transmission line connecting the shore station to an existing distribution line; and (6) appurtenant facilities. The estimated annual generation of the Kendall Head Tidal Energy Project would be 3.12 to 3.96 gigawatt-hours.
