ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2005-0163; FRL-8848-1]

Aldicarb; Notice of Receipt of Request to Voluntarily Cancel a Pesticide Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of a request by the registrant to voluntarily cancel all of the registrations for aldicarb products held by Bayer CropScience. The request asks for the deletion at various times of aldicarb use in or on citrus, cotton, dry beans, peanuts, potatoes, soybeans, sugar potatoes, sugar beets, and sweet potatoes. Because these uses constitute all the remaining uses of aldicarb, Bayer's request would result in the termination of the last aldicarb product registered for use in the United States. EPA intends to grant this request at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the request. If this request is granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been canceled only if such sale, distribution, or use is consistent with the terms as described in the final order.

DATES: Comments must be received on or before November 8, 2010.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2005-0163, by one of the following methods:

If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. II. Background on the Receipt of Requests To Cancel and/or Amend Registrations To Delete Uses

This notice announces receipt by EPA of a request from the registrant Bayer CropScience LLP (Bayer) to voluntarily cancel their remaining registration for aldicarb and to terminate all uses of aldicarb. Aldicarb is registered for use

as a systemic insecticide and nematicide on the following agricultural crops: citrus, cotton, dry beans, peanuts, potatoes, soybeans, sugar beets, and sweet potatoes. Aldicarb products are not intended for sale to homeowners or for use in residential settings. To address dietary risks of concern identified in EPA’s Revised Aggregate Dietary Risk Assessment of Aldicarb (August 4, 2010), Bayer has voluntary requested to cancel their existing FIFRA registration for Temik® 15G aldicarb end-use product, EPA Registration No. 264–330. EPA’s revised risk assessment can be found by going to the aldicarb reregistration status Web page at: <http://www.epa.gov/pesticides/reregistration/aldicarb/>. Bayer requests pursuant to section 6(f) of FIFRA, that EPA cancel the pesticide uses for citrus and potatoes effective immediately. Bayer also requests cancellation of the remaining pesticide uses (cotton, dry beans, peanuts, soybeans, sugar beets, and sweet potatoes) effective as of December 31, 2014. The action on the registrant’s request will terminate the last aldicarb pesticide products registered in the United States. For further information please refer to the

Memorandum of Agreement Between the Environmental Protection Agency and Bayer CropScience, Regarding the Registration of Pesticide Product Containing Aldicarb, signed August 16, 2010, and Bayer’s Request to Voluntarily Cancel Use on Citrus and Potatoes (August 11, 2010) which are located in the docket and on the aldicarb reregistration status Web page at: <https://www.regulations.gov> and <http://www.epa.gov/pesticides/reregistration/aldicarb/>. In addition, Bayer has requested that EPA waive the 180-day comment period section 6(f) of FIFRA otherwise provides for requests to cancel minor uses.

III. What action is the agency taking?

This notice announces receipt by EPA of a request from Bayer CropScience to cancel all remaining aldicarb product registrations. The affected product and the address of the registrant making the request are identified in Tables 1 and 2 of this unit.

Unless the Agency determines that there are substantive comments that warrant further review of this request, EPA intends to issue an order canceling the affected registration.

IV. What is the agency’s authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30–day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C)

requires that EPA provide a 180–day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrant request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The aldicarb registrant has requested that EPA waive the 180–day comment period. Accordingly, EPA will provide a 30–day comment period on the proposed requests.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the request for voluntary cancellation of the remaining aldicarb product registration and all aldicarb uses is granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to this request for cancellation of a product registration EPA currently intends to include the following provisions for the treatment of any existing stocks of the

product listed in Table 1 of Unit III. Existing stocks of aldicarb may be sold by retailers, and used on citrus and potatoes until December 31, 2011.

Sale and distribution of aldicarb end-use product for use on cotton, dry beans, peanuts, soybeans, sugar beets, and sweet potatoes will be permitted until December 31, 2016. Existing stocks of any end-use product on these remaining uses may be used until August 31, 2018.
