SUPPLEMENTARY INFORMATION:

Title: Major Research Instrumentation (MRI) Program. Outcomes Survey.

OMB Approval Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Abstract

The Major Research Instrumentation Program (MRI) catalyzes new knowledge and discoveries by providing the Nation's scientists and engineers with state-of-the-art research instrumentation. The MRI Program enables research-intensive learning environments that promote the development of a diverse workforce and next generation instrumentation, as well as facilitates academic/private sector partnerships. Among the goals of the MRI Program are:

- Supporting the acquisition of major state-of-the-art instrumentation, thereby improving access to, and increased use of, modern research and research training instrumentation by a diverse workforce of scientists, engineers, and graduate and undergraduate students;
- Fostering the development of the next generation of instrumentation, resulting in new instruments that are more widely used, and/or open up new areas of research and research training;
- Enabling academic departments, disciplinary and cross-disciplinary units organizations and multi-organization collaborations to create well-equipped research environments that integrate research with education;
- Supporting the acquisition and development of instrumentation that contributes to, or takes advantage of, existing investments in cyberinfrastructure, while avoiding duplication of services already provisioned by NSF investments; and
- Promoting substantive and meaningful partnerships for instrument development between the academic and private sectors. Such partnerships have
