

Washington, DC 20460; via telephone/voice mail (202) 564-2073; fax (202) 565-2098; or e-mail at nugent.angela@epa.gov. General information concerning the CASAC and the CASAC documents can be found on the EPA Web site at <http://www.epa.gov/casac>.

SUPPLEMENTARY INFORMATION:

Background: The Clean Air Scientific Advisory Committee (CASAC) was established under section 109(d)(2) of the Clean Air Act (CAA or Act) (42 U.S.C. 7409) as an independent scientific advisory committee. CASAC provides advice, information and recommendations on the scientific and technical aspects of air quality criteria and national ambient air quality standards (NAAQS) under sections 108 and 109 of the Act. The CASAC Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Pursuant to the Federal Advisory Committee Act (FACA), Public Law 92-463 5 U.S.C., App. 2, notice is hereby given that the CASAC NO_x & SO_x Secondary NAAQS Review Panel will hold a teleconference on November 9, 2010 from 1 p.m. to 4 p.m. (Eastern Time) and, if additional time is needed, on November 10, 2010 from 1 p.m. to 4 p.m. (Eastern Time) to continue its review of EPA's second draft Policy Assessment supporting development of secondary National Ambient Air Quality Standards (NAAQS) for NO_x and SO_x. The chartered CASAC will review the Panel's draft report on December 6, 2010, from 10 a.m. to 11 a.m. (Eastern Time) rather than on November 8, 2010 from 1 a.m. to 4 p.m. (75 FR 63471-63472), as previously announced.

The CASAC NO_x & SO_x Secondary NAAQS Review Panel held a public meeting on October 6-7, 2010 (75 FR 54871-54872) to review EPA's draft document entitled *Policy Assessment for the Review of the Secondary National Ambient Air Quality Standards for NO_x and SO_x: Second External Review Draft (September 2010)*.

Background on the CASAC panel's advice and review of other EPA documents related to the secondary NAAQS review for NO_x & SO_x can be found on the CASAC Web site at <http://yosemite.epa.gov/sab/sabproduct.nsf/WebProjectsbyTopicCASAC>.

Technical Contacts: Any questions concerning EPA's *Policy Assessment for the Review of the Secondary National Ambient Air Quality Standards for NO_x and SO_x: Second External Review Draft (September 2010)* should be directed to Dr. Byran Hubbell, OAR, at (919) 541-0621 or hubbell.bryan@epa.gov.

Availability of Meeting Materials: EPA-OAR's *Policy Assessment for the Review of the Secondary National Ambient Air Quality Standards for NO_x and SO_x: Second External Review Draft (September 2010)* is accessible at <http://www.epa.gov/ttn/naaqs/standards/no2so2sec/index.html>. The agenda and other materials for the CASAC teleconference will be posted on the CASAC Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/NOx%2FSOx%20Secondary%20NAAQS%20Review?OpenDocument.

Procedures for Providing Public Input: Public comment for consideration by EPA's Federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a Federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a Federal advisory committee to consider as it develops advice for EPA. They should send their comments directly to the Designated Federal Officer for the relevant advisory committee. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a teleconference meeting will be limited to three minutes per speaker, with no more than a total of one hour for all speakers. Interested parties should contact Dr. Nugent at the contact information provided above by November 5, 2010, to be placed on the public speaker list for the teleconferences on November 9, 2010. Interested parties should contact Dr. Stallworth at the contact information provided above by December 2, 2010, to be placed on the public speaker list for the teleconferences on December 6, 2010. **Written Statements:** Written statements for the November teleconferences should be received by Dr. Nugent by November 5, 2010 so that the information can be made available to the Panel for their consideration prior to the teleconference call. Written statements for the December teleconference should be received by Dr. Stallworth by December 2, 2010. Written statements should be supplied to the appropriate DFO in the following formats: One hard copy with original signature and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, MS Word, WordPerfect, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

Submitters are asked to provide versions of each November 5, 2010 document submitted with and without signatures, because the SAB Staff Office does not publish documents with signatures on its Web sites.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Nugent or Dr. Stallworth, as appropriate, at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: October 18, 2010.

Vanessa T. Vu,

Director, EPA Science Advisory Board Staff Office.

Science Advisory Board Staff Office; Notification of a Public Teleconference of the Chartered Science Advisory Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office announces a public teleconference of the chartered SAB on November 22, 2010 to conduct a quality review of a draft SAB report.

DATES: The public teleconference will be held on November 22, 2010 from 2 p.m. to 5 p.m. (Eastern Time).

ADDRESSES: The public teleconference will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing to obtain general information concerning this public teleconference should contact Dr. Angela Nugent, Designated Federal Officer (DFO), EPA Science Advisory Board (1400R), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; via telephone/voice mail (202) 564-2218; fax (202) 565-2098; or e-mail at nugent.angela@epa.gov. General information concerning the EPA Science Advisory Board can be found on the SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2, notice is hereby given that the EPA Science Advisory Board will hold a public teleconference to quality review a revised draft report from the SAB Work

Group regarding EPA's *Toxicological Review of Inorganic Arsenic In Support of Summary Information on the Integrated Risk Information System (IRIS)* (External Review Draft, February 2010). The SAB was established pursuant to 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee under FACA. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background: The chartered SAB conducted a quality review of draft report dated May 13, 2010 from the SAB Work Group on June 16, 2010 (75 FR 27553–27554). Background information about this SAB advisory activity and the chartered SAB's June quality review can be found on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Rev%20Tox%20Review%20Inorg%20Arsenic?OpenDocument. After the June teleconference, the work group revised the draft report in light of comments received.

Availability of Meeting Materials: The agenda, draft SAB work group report, and other materials in support of the teleconference will be placed on the SAB Web site at <http://www.epa.gov/sab> in advance of the teleconference.

Procedures for Providing Public Input: Public comment for consideration by EPA's Federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a Federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a Federal advisory committee to consider as it develops advice for EPA. They should send their comments directly to the Designated Federal Officer for the relevant advisory committee. **Oral Statements:** In general, individuals or groups requesting time to make an oral presentation at a public SAB teleconference will be limited to three minutes. Those interested in being placed on the public speakers list should contact Dr. Nugent at the contact information provided above by November 15, 2010. **Written Statements:** Written statements should be received in the SAB Staff Office by November 15, 2010. Written statements should be supplied to the DFO via e-mail to nugent.angela@epa.gov (acceptable file

format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). Submitters are asked to provide versions of each document submitted with and without signatures, because the SAB Staff Office does not publish documents with signatures on its Web sites.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Angela Nugent at (202) 564–2218 or nugent.angela@epa.gov. To request accommodation of a disability, please contact her preferably at least 10 days prior to the teleconference, to give EPA as much time as possible to process your request.

Dated: October 18, 2010.

Vanessa T. Vu,

Director, EPA Science Advisory Board Staff Office.

Approval of a Petition for Exemption From Hazardous Waste Disposal Injection Restrictions to ArcelorMittal Burns Harbor, LLC, Burns Harbor, IN

AGENCY: Environmental Protection Agency.

ACTION: Notice of final decision on petition.

SUMMARY: Notice is hereby given by the United States Environmental Protection Agency (EPA) that an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments (HSWA) to the Resource Conservation and Recovery Act (RCRA) has been granted to ArcelorMittal Burns Harbor, LLC (AMBH) of Burns Harbor, Indiana, for three Class I injection wells located in Burns Harbor, Indiana. As required by 40 CFR part 148, AMBH has demonstrated, to a reasonable degree of certainty, that there will be no migration of hazardous constituents out of the injection zone or into an underground source of drinking water (USDW) for at least 10,000 years. This final decision allows the continued underground injection by AMBH of a specific restricted waste, Spent Pickle Liquor (code K062 under 40 CFR part 261), into one Class I hazardous waste injection well specifically identified as Spent Pickle Liquor No. 1; and of waste ammonia liquor (codes D010, D018 or D038 under 40 CFR part 261), into two

Class I hazardous injection wells specifically identified as Waste Ammonia Liquor No. 1 and Waste Ammonia Liquor No. 2 at the AMBH facility. This decision constitutes a final EPA action for which there is no administrative appeal process.

DATES: This action is effective as of October 25, 2010.

FOR FURTHER INFORMATION CONTACT: William Bates, Lead Petition Reviewer, EPA, Region 5, telephone (312) 886–6110. Copies of the petition and all pertinent information relating thereto are on file and are part of the Administrative Record. It is recommended that you contact the lead reviewer prior to reviewing the Administrative Record.

SUPPLEMENTARY INFORMATION:

Background

AMBH submitted a petition for renewal of an existing exemption from the land disposal restrictions of hazardous waste on March 15, 2007. EPA personnel reviewed all data pertaining to the petition, including, but not limited to, well construction, well operations, regional and local geology, seismic activity, penetrations of the confining zone, and computational models of the injection zone. EPA has determined that the hydrogeological and geochemical conditions at the site and the nature of the waste streams are such that reliable predictions can be made that fluid movement conditions are such that injected fluids will not migrate out of the injection zone within 10,000 years, as set forth at 40 CFR part 148. The injection zone for the AMBH facility is composed of the lower Eau Claire Formation and Mount Simon Sandstone, between 2,180 and 4,297 feet. The confining zone at the AMBH facility is the upper Eau Claire Formation, which is found between 1,936 and 2,180 feet. The confining zone is separated from the lowermost underground source of drinking water (at a depth of 726 feet below ground level) by a sequence of permeable and less permeable sedimentary rocks, which provide additional protection from fluid migration into drinking water sources.

EPA issued a draft decision, which described the reasons for granting this exemption in more detail, a fact sheet, which summarized these reasons, and a public notice on February 19, 2010, pursuant to 40 CFR 124.10. A public meeting and a public hearing were held on March 24, 2010. The public comment period expired on April 7, 2010. The comments EPA received included questions on the evaluation, the level of
